Business Outlook

- We believe that we are in a cyclical recovery in commercial real estate with annual growth expected to be similar to our long-term business model
- This model (on a normalized basis) is:
 - Revenue growth of 7-9%
 - EBITDA growth of 12-14%
 - EPS growth of high-teens to 20%
- Outsourcing is likely to grow at one of the faster rates among our businesses, in the low double digits
- Investment sales will likely be paced by broader economic recovery driven by core asset demand in major markets with increasing contributions from secondary markets
- Leasing growth rates will likely continue to be modest until we see sustained job growth and rental rate increases
- Investment management will benefit from a full year of contribution from ING REIM
- We expect to once again deliver the industry's highest normalized EBITDA margin in 2012, in large part due to our expense discipline
- All these factors support our 2012 normalized EPS guidance range of \$1.20 to \$1.25 per diluted share
