Discontinued Operations (Slides 10, 24 and 25)

- Under GAAP, the Company has historically classified most of its gains on dispositions of real estate as income from discontinued operations rather than as revenue and earnings from continuing operations. The Company's Development Services segment, and occasionally its Global Investment Management segment, are engaged in developing and selling real estate projects in the normal course of business. Management believes that the characterization of these gains as income from discontinued operations may create the inaccurate impression that the Company is exiting this business. Effective January 1, 2014, CBRE adopted new GAAP accounting standards that no longer require us to report dispositions of real estate as income from discontinued operations.
- Revenue from discontinued operations which totaled: \$1.3 million for the year ended December 31, 2008, \$3.9 million for the year ended December 31, 2010, \$6.7 million for the year ended December 31, 2011, \$5.7 million for the year ended December 31, 2012, \$9.4 million for the year ended December 31, 2013 and \$5.4 million for the twelve months ended March 31, 2014.
- EBITDA related to discontinued operations which totaled: \$16.9 million for the year ended December 31, 2008, \$16.4 million for the year ended December 31, 2010, \$14.1 million for the year ended December 31, 2011, \$5.6 million for the year ended December 31, 2012, \$7.9 million for the year ended December 31, 2013 and \$3.5 million for the twelve months ended March 31, 2014.
