CBRE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Basis of Presentation

Readers of this Quarterly Report on Form 10-Q (Quarterly Report) should refer to the audited financial statements and notes to consolidated financial statements of CBRE Group, Inc., a Delaware corporation (which may be referred to in these financial statements as “CBRE,” “the company,” “we,” “us” and “our”), for the year ended December 31, 2025, which are included in our [2025 Annual Report on Form 10-K \(2025 Annual Report\)](#), filed with the United States Securities and Exchange Commission (SEC) and also available on our website (www.cbre.com), since we have omitted from this Quarterly Report certain footnote disclosures which would substantially duplicate those contained in such audited financial statements. You should also refer to Note 2 – Significant Accounting Policies, in the notes to consolidated financial statements in our [2025 Annual Report](#) for further discussion of our significant accounting policies and estimates.

Financial Statement Preparation

The accompanying consolidated financial statements have been prepared in accordance with the rules applicable to quarterly reports on Form 10-Q and include all information and footnotes required for interim financial statement presentation, but do not include all disclosures required under accounting principles generally accepted in the United States (U.S.), or Generally Accepted Accounting Principles (GAAP), for annual financial statements. Our consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the U.S., which require management to make estimates and assumptions about future events. These estimates and the underlying assumptions affect the amounts reported in our consolidated financial statements and accompanying notes and are based on our best judgment. We evaluate our estimates and assumptions on an ongoing basis using historical experience and other factors, including consideration of the current economic environment, and adjust such estimates and assumptions when facts and circumstances dictate. Actual results may differ from these estimates and assumptions.

Beginning with first-quarter 2026 results, we have reclassified amortization associated with MSRs (mortgage servicing rights) to net against the related revenue (commercial mortgage origination). Historically, we have recognized the corresponding MSR intangible asset as an amortization expense over the estimated mortgage service period. Our reclassification aligns the amortization expense with the related revenue stream, reflecting the net amount earned by the business, and more closely follows standard industry practice. We recognized amortization expense related to MSRs of \$38 million and \$76 million for the three and six months ended June 30, 2026 and \$37 million and \$72 million for the same periods in 2025. Prior year amounts have been reclassified to conform with the 2026 presentation.

2. New Accounting Pronouncements

Recently Adopted Accounting Pronouncements

In July 2025, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2025-05, “*Credit Losses (Topic 326): Financial Instruments*.” This ASU provides a practical expedient to assume current economic conditions will not change for the remaining life of an asset when preparing forecasts as part of estimating expected credit losses. This guidance is effective for fiscal years and interim periods beginning after December 15, 2025, with early adoption permitted and should be applied on a prospective basis if the practical expedient is elected. We adopted ASU 2025-05 in the first quarter of 2026. The adoption did not have a material impact on our consolidated financial statements and related disclosures.

Recent Accounting Pronouncements Pending Adoption

In November 2024, the FASB issued ASU 2024-03, “*Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*.” This ASU requires public business entities to disclose additional information about specific expense categories in the notes to financial statements at interim and annual reporting periods. This guidance is effective for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027 with early adoption permitted. These requirements should be applied on a prospective basis with an option to apply them retrospectively. We anticipate ASU 2024-03 will result in expanded disclosures related to our income statement expenses.

In May 2025, the FASB issued ASU 2025-03, “*Business Combination (Topic 805) and Consolidation (Topic 810): Determining the Accounting Acquirer in the Acquisition of a Variable Interest Entity*.” This ASU requires public business entities to assess which entity is the accounting acquirer for a business combination that is effected primarily by exchanging equity interest in which a Variable Interest Entity (VIE) is acquired. This guidance is effective for fiscal years and interim periods beginning after December 15, 2026, with early adoption permitted. These requirements should be applied on a prospective basis to any transaction that occurs after the initial application date. We do not expect the adoption of ASU 2025-03 to have a material impact on our consolidated financial statements and related disclosures.

In September 2025, the FASB issued ASU 2025-06, “*Intangibles—Goodwill and Other (Topic 350): Internal-use Software*.” This ASU removes all references to prescriptive and sequential software development stages (referred to as “project stages”) throughout Subtopic 350-40 and requires the capitalization of software costs to begin when 1) management has authorized and committed to funding the software project and 2) it is probable that the project will be completed and the software will be used to perform the function intended. This guidance is effective for fiscal years and interim periods beginning after December 15, 2027, with early adoption permitted. These requirements should be applied using a prospective, modified transition, or retrospective approach. We are evaluating the impact that ASU 2025-06 will have on our consolidated financial statement disclosures.

In September 2025, the FASB issued ASU 2025-07, “*Derivatives and Hedging (Topic 815) and Revenue from Contracts with Customers (Topic 606): Derivatives Scope Refinements and Scope Clarification for Share-Based Noncash Consideration from a Customer in a Revenue Contract*.” This ASU excludes from derivative accounting non-exchange-traded contracts with underlyings based on operations or activities specific to one of the parties to the contract. This guidance is effective for fiscal years and interim periods beginning after December 15, 2026, with early adoption permitted. These requirements may be applied prospectively or on a modified retrospective basis through a cumulative-effect adjustment to the opening balance of retained earnings. We do not expect the adoption of ASU 2025-07 to have a material impact on our consolidated financial statements and related disclosures.

In November 2025, the FASB issued ASU 2025-08, “*Financial Instruments—Credit Losses (Topic 326): Purchased Loans*.” This ASU introduces the concept of “purchased seasoned loans” through new seasoning guidance and expands the use of the gross-up approach for non-Purchased Credit Deteriorated loans. This guidance is effective for fiscal years and interim periods beginning after December 15, 2026, with early adoption permitted. The amendments must be applied prospectively to loans that are acquired on or after the date of initial application. We do not expect the adoption of ASU 2025-08 to have a material impact on our consolidated financial statements and related disclosures.

In November 2025, the FASB issued ASU 2025-09, “*Derivatives and Hedging (Topic 815): Hedge Accounting Improvements*.” This ASU clarifies and increases flexibility in hedge accounting and further aligns hedge accounting with the economics of an entity’s risk management activities through clarification of five primary issues. This guidance is effective for

fiscal years and interim periods beginning after December 15, 2026, with early adoption permitted and should be applied on a prospective basis. We do not expect the adoption of ASU 2025-09 to have a material impact on our consolidated financial statements and related disclosures.

In December 2025, the FASB issued ASU 2025-10, “*Government Grants (Topic 832): Accounting for Government Grants Received by Business Entities*.” This ASU provides authoritative guidance for the recognition, measurement, and presentation of government grants, aiming to reduce diversity in practice and improve consistency. This guidance is effective for fiscal years and interim periods beginning after December 15, 2028, with early adoption permitted. These requirements may be applied using a modified prospective, modified retrospective, or retrospective approach. We do not expect the adoption of ASU 2025-10 to have a material impact on our consolidated financial statements and related disclosures.

In May 2026, the FASB issued ASU 2026-02, “*Environmental Credits and Environmental Credit Obligations (Topic 818)*.” This ASU establishes a new Codification topic that provides comprehensive accounting guidance for environmental credits and environmental credit obligations. This guidance is effective for fiscal years and interim periods beginning after December 15, 2027, with early adoption permitted. These requirements should be applied retrospectively through a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. We are evaluating the impact that ASU 2026-02 will have on our consolidated financial statements and related disclosures.

3. Acquisitions

Pearce

On November 4, 2025, we acquired 100% ownership interest in Pearce Services, LLC (Pearce), a leading provider of advanced technical services for digital and power infrastructure. Pearce forms part of our Building Operations & Experience (BOE) segment.

The Pearce acquisition was treated as a business combination under FASB Accounting Standards Codification (ASC) Topic 805, “*Business Combinations*,” and was accounted for using the acquisition method of accounting. We financed the acquisition with (i) cash on hand and (ii) borrowings under our existing commercial paper program, which were partially repaid with the net proceeds from the issuance of \$750 million in aggregate principal amount of 4.900% senior notes in November 2025. See Note 10 – Long-Term Debt and Short-Term Borrowings for more information on the above-mentioned debt instruments.

The following summarizes the consideration transferred at closing for the Pearce acquisition (dollars in millions):

Cash consideration	\$	763
Settlement of long-term debt		280
Deferred and contingent consideration		132
Other		11
Total consideration	\$	<u>1,186</u>

The purchase price includes a deferred consideration payment of \$115 million, due on November 3, 2026. The transaction also includes contingent consideration related to a potential earnout payment of up to \$115 million, which is subject to the achievement of certain performance thresholds through the calendar year 2027. In addition, certain Pearce performance-based stock compensation awards and certain transaction bonuses payable to certain executives participate in the deferred and contingent consideration payouts, provided the holders of such awards or bonuses remain employed with the company, up to the relevant payment date. The amounts of both the performance-based stock compensation awards and transaction bonuses vary based on a sliding scale according to the same thresholds as the contingent consideration. The fair values of the non-compensatory portion of the deferred consideration and contingent consideration were \$101 million and \$31 million, respectively, as of the acquisition date.

The following represents the summary of the excess purchase price over the fair value of net assets acquired (dollars in millions):

Purchase price	\$	1,186
Less: Estimated fair value of net assets acquired		573
Excess purchase price over estimated fair value of net assets acquired	\$	<u>613</u>

The purchase accounting adjustments related to the Pearce acquisition have been recorded in the accompanying consolidated financial statements. The excess purchase price over the fair value of net assets acquired has been recorded to goodwill. The goodwill arising from the Pearce acquisition consists largely of the synergies and opportunities related to the digital and power infrastructure space. Of the goodwill generated, approximately \$106 million is deductible for tax purposes.

The acquired assets and assumed liabilities of Pearce were recorded at their estimated fair values. The purchase price allocation for the business combination is primarily for intangible assets acquired, and subject to change within the respective measurement period, which will not extend beyond one year from the acquisition date. Measurement period adjustments will be recognized in the reporting period in which the adjustment amounts are determined. Any such adjustments may be material.

The following table summarizes the fair values assigned to the identified assets acquired and liabilities assumed at the acquisition date on November 4, 2025 (dollars in millions):

Assets Acquired:	
Current assets	\$ 194
Property, plant & equipment	15
Intangible assets	600
Goodwill	613
Right-of-use and other assets	46
Total assets acquired	1,468
Liabilities Assumed:	
Current liabilities	135
Deferred tax and other liabilities	147
Total liabilities assumed	282
Estimated Fair Value of Net Assets Acquired	\$ 1,186

In connection with the Pearce acquisition, below is a summary of the value allocated to the intangible assets acquired (dollars in millions):

Asset Class	Amortization Period	Amount Assigned at Acquisition Date
Customer relationships	8-13 years	\$ 551
Tradenames	11 years	48
Non-Compete agreements	9-13 years	1
Total identified intangible assets		\$ 600

The fair value of customer relationships was determined using the Multi-Period Excess Earnings Method (MPEEM), a form of the Income Approach. The MPEEM is a specific application of the Discounted Cash Flow Method. The principle behind the MPEEM is that the value of an intangible asset is equal to the present value of the incremental cash flows attributable only to the subject intangible asset. This estimation used certain unobservable key inputs such as timing of projected cash flows, growth rates, expected contract renewal probabilities, discount rates, and the asset's useful life.

The fair value of the tradenames was determined by using the Relief-from-Royalty Method, a form of the Income Approach, and relied on key unobservable inputs such as timing of the projected cash flows, growth rates, and royalty rates. The basic tenet of the Relief-from-Royalty Method is that without ownership of the subject intangible asset, the user of that intangible asset would have to make a stream of payments to the owner of the asset in return for the rights to use that asset. By acquiring the intangible asset, the user avoids these payments.

Supplemental pro forma information reflecting the impact of the Pearce acquisition is not provided as the acquisition did not have a material effect on the company's results of operations.

Industrious

On January 16, 2025, we acquired the remaining 60% ownership interest that we did not already own in Industrious National Management Company, LLC (Industrious), a leading provider of flexible workplace solutions, increasing our ownership to 100%. Industrious forms part of our BOE segment.

The Industrious acquisition was treated as a business combination under FASB ASC Topic 805, “*Business Combinations*,” and was accounted for using the acquisition method of accounting. We financed the acquisition with (i) borrowings under our existing commercial paper program and (ii) cash on hand.

The following summarizes the consideration transferred at closing for the Industrious acquisition (dollars in millions):

Cash consideration	\$	369
Fair value of existing equity method investment in Industrious		373
Forgiveness of note receivable		50

Purchase price	\$	841
Less: Estimated fair value of net assets acquired		249
Excess purchase price over estimated fair value of net assets acquired	\$	<u>592</u>

The purchase accounting adjustments related to the Industrious acquisition have been recorded in the accompanying consolidated financial statements. The excess purchase price over the fair value of net assets acquired has been recorded to goodwill. The goodwill arising from the Industrious acquisition consists largely of the synergies and opportunities related to the flexible workplace solutions space. Of the goodwill generated, approximately \$440 million is deductible for tax purposes.

The acquired assets and assumed liabilities of Industrious were recorded at their estimated fair values. The purchase price allocation for the business combination is primarily for intangible assets acquired. Measurement period adjustments did not extend beyond one year from the acquisition date, and were recognized in the reporting period in which the adjustment amounts were determined.

The following table summarizes the fair values assigned to the identified assets acquired and liabilities assumed at the acquisition date on January 16, 2025 (dollars in millions):

Customer relationships	8 years	\$ 78
Tradenames	11-13 years	137
Management agreements	10 years	20

The fair value of customer relationships and management agreements was determined using the Multi-Period Excess Earnings Method (MPEEM), a form of the Income Approach. The MPEEM is a specific application of the Discounted Cash Flow Method. The principle behind the MPEEM is that the value of an intangible asset is equal to the present value of the incremental cash flows attributable only to the subject intangible asset. This estimation used certain unobservable key inputs such as timing of projected cash flows, growth rates, expected contract renewal probabilities, discount rates, and the assessment of useful life.

The fair value of the tradenames was determined by using the Relief-from-Royalty Method, a form of the Income Approach, and relied on key unobservable inputs such as timing of the projected cash flows, growth rates, and royalty rates. The basic tenet of the Relief-from-Royalty Method is that without ownership of the subject intangible asset, the user of that intangible asset would have to make a stream of payments to the owner of the asset in return for the rights to use that asset. By acquiring the intangible asset, the user avoids these payments.

Supplemental pro forma information reflecting the impact of the Industrious acquisition is not provided as the acquisition did not have a material effect on the company's results of operations.

Turner & Townsend

In early January 2025, we completed the combination of our project management business with our Turner & Townsend subsidiary, whereby we contributed CBRE's project management businesses in exchange for an additional 10% ownership interest in the combined project management business (the Combined Project Management Business). Upon completion of the transaction, CBRE holds a 70% controlling interest in the Combined Project Management Business. The transaction was accounted for as a transfer under common control.

As part of the combination agreement, CBRE granted to the Turner & Townsend partners an option to require CBRE to purchase additional shares in the Combined Project Management Business, which is exercisable during the period between January 1, 2027 and March 31, 2030 (the Put Option). The price payable to the Turner & Townsend partners will be the fair value of the shares at the date the Put Option is exercised. As exercise of the Put Option is not solely in the control of the company, the interest in the Combined Project Management Business related to the Put Option has been classified as Mezzanine Equity on our balance sheet per ASC 480-10-S99, "*Distinguishing liabilities from Equity – SEC Materials.*" The shares in the Combined Project Management Business subject to the Put Option were valued at \$454 million and \$433 million as of June 30, 2026 and December 31, 2025, respectively, and were estimated based on discounted forecasted cash flows for the business. We have elected to recognize changes in the redemption value as they occur by adjusting the amount of the redeemable shares to their redemption value at the end of each period.

4. Warehouse Receivables & Warehouse Lines of Credit

Our wholly-owned subsidiary CBRE Capital Markets, Inc. (CBRE Capital Markets) is a Federal Home Loan Mortgage Corporation (Freddie Mac) approved Multifamily Program Plus Seller/Servicer and an approved Federal National Mortgage Association (Fannie Mae) Aggregation and Negotiated Transaction Seller/Servicer. In addition, CBRE Capital Markets' wholly-owned subsidiary CBRE Multifamily Capital, Inc. (CBRE MCI) is an approved Fannie Mae Delegated Underwriting and Servicing (DUS) Seller/Servicer and CBRE Capital Markets' wholly-owned subsidiary CBRE HMF, Inc. (CBRE HMF) is a U.S. Department of Housing and Urban Development (HUD) approved Non-Supervised Federal Housing Authority (FHA) Title II Mortgagee, an approved Multifamily Accelerated Processing (MAP) lender and an approved Government National Mortgage Association (Ginnie Mae) issuer of mortgage-backed securities (MBS). Under these arrangements, before loans are originated through proceeds from warehouse lines of credit, we obtain either a contractual loan purchase commitment from either Freddie Mac or Fannie Mae or a confirmed forward trade commitment for the issuance and purchase of a Fannie Mae or Ginnie Mae MBS that will be secured by the loans. The warehouse lines of credit are generally repaid within a one-month

period when Freddie Mac or Fannie Mae buys the loans or upon settlement of the Fannie Mae or Ginnie Mae MBS, while we retain the servicing rights. Loans are funded at the prevailing market rates. We elected the fair value option for all warehouse receivables. At June 30, 2026 and December 31, 2025, all of the warehouse receivables included in the accompanying consolidated balance sheets were either under commitment to be purchased by Freddie Mac or had confirmed forward trade commitments for the issuance and purchase of Fannie Mae or Ginnie Mae MBS that will be secured by the underlying loans.

A roll forward of our warehouse receivables is as follows (dollars in millions):

Beginning balance at December 31, 2025	\$ 1,630
Origination of mortgage loans	6,506
Gains (premiums on loan sales)	16
Proceeds from sale of mortgage loans:	
Sale of mortgage loans	(7,406)

⁽¹⁾ This facility was renewed on February 10, 2026, and the \$15 million sublimit for Small Business Administration loans was removed.

⁽²⁾ On December 4, 2025, the Fannie Mae ASAP line capacity was temporarily increased from \$650 million to \$1.2 billion through January 30, 2026 and was not renewed upon expiration.

⁽³⁾ On July 15, 2026, this facility was renewed and will expire on September 13, 2026.

⁽⁴⁾ This facility was renewed on May 20, 2026.

During the six months ended June 30, 2026, we had a maximum of \$1.6 billion of warehouse lines of credit principal outstanding.

5. Variable Interest Entities (VIEs)

We hold variable interests in certain VIEs primarily in our Real Estate Investments (REI) segment which are not consolidated as it was determined that we are not the primary beneficiary. Our involvement with these entities is in the form of equity co-investments and fee arrangements. As of June 30, 2026 and December 31, 2025, our maximum exposure to loss related to the VIEs that are not consolidated was as follows (dollars in millions):

	June 30, 2026	December 31, 2025
Investments in unconsolidated subsidiaries	\$ 187	\$ 187
Other current assets	1	1
Co-investment commitments	33	35
Maximum exposure to loss	<u>\$ 221</u>	<u>\$ 223</u>

6. Goodwill

We test each of our reporting units for goodwill impairment annually at October 1st, or upon the occurrence of a triggering event, in accordance with ASC Topic 350, “*Intangibles – Goodwill and Other.*” As of January 1, 2026, we transferred the data center project work that is integrated with our Data Center Services facilities management business from the Project Management segment to the BOE segment. This changed the composition of our reporting units which resulted in the reallocation of goodwill from the Project Management segment to the BOE segment as of January 1, 2026. Additionally, the change in composition of our reporting units was considered a triggering event requiring an interim goodwill impairment test as of January 1, 2026. We determined that no impairment existed as the estimated fair values of our reporting units were in excess of their respective carrying values, both before and after the transfer.

⁽¹⁾ Beginning goodwill balance is presented net of prior accumulated impairment losses of \$673 million, \$175 million, \$89 million, and \$183 million related to the Advisory Services, BOE, Project Management, and REI segments, respectively.

7. Fair Value Measurements

FASB ASC Topic 820, “*Fair Value Measurements and Disclosures,*” (Topic 820) defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

There have been no significant changes to the valuation techniques and inputs used to develop the recurring fair value measurements from those disclosed in our [2025 Annual Report](#).

Fair value measurements for our available for sale debt securities are obtained from independent pricing services which utilize observable market data that may include quoted market prices, dealer quotes, market spreads, cash flows, the U.S. treasury yield curve, trading levels, market consensus prepayment speeds, credit information and the instrument's terms and conditions.

The equity securities are generally valued at the last reported sales price on the day of valuation or, if no sales occurred on the valuation date, at the mean of the bid and ask prices on such date. The above tables do not include \$130 million related to capital investments as of both June 30, 2026 and December 31, 2025, respectively, in certain non-public entities as they are non-marketable equity investments accounted for under the measurement alternative, which are measured at cost, with fair value adjustments for observable market transactions, minus impairment. These investments are included in "Other assets" in the accompanying consolidated balance sheets.

CBRE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The fair values of the warehouse receivables are primarily calculated based on locked-in purchase prices. At June 30, 2026 and December 31, 2025, all of the warehouse receivables included in the accompanying consolidated balance sheets were either under commitment to be purchased by Freddie Mac or had confirmed forward trade commitments for the issuance and purchase of Fannie Mae or Ginnie Mae mortgage backed securities that will be secured by the underlying loans (see Note 4 – Warehouse Receivables & Warehouse Lines of Credit). These assets are classified as Level 2 in the fair value hierarchy as a substantial majority of inputs are readily observable.

As of June 30, 2026 and December 31, 2025, investments in unconsolidated subsidiaries at fair value using NAV were \$406 million and \$402 million, respectively, and investments at fair value using NAV which are not accounted for under the equity method were \$23 million, for both June 30, 2026 and December 31, 2025, respectively. These investments fall under the practical expedient rules that do not require them to be included in the fair value hierarchy and as a result have been excluded from the tables above.

The tables below present a reconciliation for assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) (dollars in millions):

	Investment in Unconsolidated Subsidiaries	Contingent Consideration ⁽¹⁾
Balance as of March 31, 2026	\$ 19	\$ 68
Net change in fair value	—	(22)

Sales / Payments	—	(12)

⁽¹⁾ As of June 30, 2026, a Monte Carlo model was used to estimate the fair value of Contingent Consideration related to the Pearce acquisition. The unobservable inputs used for volatility and the discount rate were 17.6% and 4.9%, respectively.

Net change in fair value, included in the table above, is reported in Net income as follows:

Category of Assets/Liabilities using Unobservable Inputs	Consolidated Financial Statements
Investments in unconsolidated subsidiaries	Equity income (loss) from unconsolidated subsidiaries
Contingent consideration (short-term)	Accounts payable and accrued expenses
Contingent consideration (long-term)	Other liabilities

FASB ASC Topic 825, “*Financial Instruments*,” requires disclosure of fair value information about financial instruments, whether or not recognized in the accompanying consolidated balance sheets. Our financial instruments are as follows:

- *Cash and Cash Equivalents and Restricted Cash* – These balances include cash and cash equivalents as well as restricted cash with maturities of less than three months. The carrying amount approximates fair value due to the short-term maturities of these instruments.
- *Receivables, less Allowance for Doubtful Accounts* – Due to their short-term nature, fair value approximates carrying value.
- *Warehouse Receivables* – These balances are carried at fair value. The primary source of value is either a contractual purchase commitment from Freddie Mac or a confirmed forward trade commitment for the issuance and purchase of a Fannie Mae or Ginnie Mae MBS (see Note 4 – Warehouse Receivables & Warehouse Lines of Credit).
- *Investments in Unconsolidated Subsidiaries* – A portion of these investments are carried at fair value as discussed above. It includes our equity investment and related interests in both public and non-public entities. Our previous ownership of common shares in Altus Power, Inc. (Altus) was considered Level 1 and was measured at fair value using a quoted price in an active market. On April 16, 2025, Altus was acquired by a third-party and as a result we no longer hold any shares in Altus. Certain non-controlling equity investments are considered Level 3.

CBRE GROUP, INC.

- *Available for Sale Debt Securities* – Primarily held by our wholly-owned captive insurance company, these investments are carried at their fair value.
- *Equity Securities* – Primarily held by our wholly-owned captive insurance company, these investments are carried at their fair value.
- *Derivative Assets and Liabilities* – The fair value of cross-currency swaps reflects the net present value of expected payments and receipts under the swap agreement based on the market's expectation of future spot foreign currency exchange rates. Additional inputs to the net present value calculation may include the contract terms, counterparty credit risk and discount rates. These financial instruments are designated as Level 2 under the fair value hierarchy (see Note 8 – Derivatives and Hedging Activities).
- *Contingent Consideration* – The fair values of contingent consideration related to business acquisitions are estimated using Monte Carlo simulations or the probability-weighted present value of estimated future payments resulting from the achievement levels of financial targets.
- *Short-Term Borrowings* – The majority of this balance represents outstanding amounts under our warehouse lines of credit of our wholly-owned subsidiary, CBRE Capital Markets, our commercial paper program, and our revolving credit facilities. Due to the short-term nature and/or variable interest rates of these instruments, fair value approximates carrying value (see Note 4 – Warehouse Receivables & Warehouse Lines of Credit and Note 10 – Long-Term Debt and Short-Term Borrowings).
- *Senior Term Loans and Senior Notes* – The table below presents the estimated fair value and actual carrying value of our long-term debt (net of unamortized discount and unamortized debt issuance costs) as of June 30, 2026 and December 31, 2025 (dollars in millions). The estimated fair value is determined based on dealers' quotes (which falls within Level 2 of the fair value hierarchy). The actual carrying value is presented net of unamortized debt issuance costs and discount (see Note 10 – Long-Term Debt and Short-Term Borrowings).

5.500% senior notes due 2035	505	516	494	494
5.250% senior notes due 2036	740	—	735	—

- *Notes Payable on Real Estate* – As of June 30, 2026 and December 31, 2025, the carrying value of our notes payable on real estate, net of unamortized debt issuance costs, was \$405 million and \$197 million, respectively. These borrowings have either fixed interest rates or floating interest rates at spreads added to a market index. Although it is possible that certain portions of our notes payable on real estate may have fair values that differ from their carrying values, based on the terms of such loans as compared to current market conditions, or other factors specific to the borrower entity, we do not believe that the fair value of our notes payable is significantly different than their carrying value.

8. Derivatives and Hedging Activities

We use fixed to fixed and float to float cross-currency swaps to hedge our exposure to changes in foreign exchange rates on certain foreign investments as well as foreign currency denominated loans. These swaps are designated as either net investment or fair value hedges. We do not enter into derivative transactions for speculative or trading purposes. Derivative financial instruments that are not designated as hedges were immaterial as of June 30, 2026 and December 31, 2025.

⁽¹⁾ As of June 30, 2026 and December 31, 2025, the gross notional amount of currency swaps designated as fair value hedges was \$453 million and \$473 million, respectively; and the gross notional amount of currency swaps designated as net investment hedges was \$5.5 billion and \$3.9 billion, respectively. The notional amounts of our cross-currency swaps have been translated to U.S. Dollars at the foreign currency rates in effect at June 30, 2026, and December 31, 2025, respectively.

Fair Value Hedges

On July 10, 2023 and March 14, 2025, we entered into cross-currency swaps, designated as fair value hedges, to manage foreign currency exposure from the Tranche A (USD) Term Loans and Incremental USD Term Loans entered into by Relam Amsterdam Holdings B.V., a Euro functional currency subsidiary (see Note 10 – Long-Term Debt and Short-Term Borrowings). As of June 30, 2026 and December 31, 2025, the total principal outstanding balance of the loans was \$435 million, \$24 million of which was current, and \$447 million, \$24 million of which was current, respectively. The swaps have an aggregate notional value of \$435 million and \$447 million as of June 30, 2026 and December 31, 2025, respectively, and will mature on July 10, 2028.

We also utilize additional cross-currency swaps designated as fair value hedges to manage foreign currency exposure related to intercompany loans. The total notional amount of this portfolio as of June 30, 2026 and December 31, 2025 was \$18 million and \$26 million, respectively.

The cross-currency swaps designated in these fair value hedging relationships are accounted for using the spot method, with changes in the fair value of the contract attributable to the changes in spot rates recorded within operating, administrative, and other in the consolidated statements of operations. The company has elected to exclude the changes in the fair value attributable to the difference between the spot price and the forward price, as well as any cross-currency basis spread (the “Excluded Fair Value Hedge Components”) from the assessment of hedge effectiveness. The value of the Excluded Fair Value Hedge Components was not significant to the consolidated financial statements in the current fiscal period or prior fiscal period. The changes in fair value attributable to the Excluded Fair Value Hedge Components are recorded in accumulated other comprehensive loss (AOCL) and are recognized in interest expense in the consolidated statements of operations on a systematic and rational basis through the swap accrual over the life of the hedging instrument.

The gains and losses on outstanding fair value hedges resulting from the change in foreign currency rates for the three and six months ended June 30, 2026 were gains of \$5 million and losses of \$11 million, respectively, and recorded in operating, administrative, and other on the consolidated statements of operations. These were offset by foreign currency transaction gains and losses on the related hedged loans resulting in no net loss for the three and six months ended June 30, 2026. Related to these cross-currency swaps, we recognized net gains of \$1 million and \$3 million, respectively, in interest income on the consolidated statements of operations for the three and six months ended June 30, 2026.

Losses on the fair value hedges outstanding resulting from the change in foreign currency rates for the three and six months ended June 30, 2025 were \$40 million and \$50 million, respectively, and recorded in operating, administrative, and other on the consolidated statements of operations. These losses were offset by foreign currency transaction gains on the hedged loans resulting in no net loss for the three and six months ended June 30, 2025. Related to these cross-currency swaps, we recognized net gains of \$2 million in interest income on the consolidated statements of operations for both the three and six months ended June 30, 2025.

Net Investment Hedges

The company has entered into cross-currency swap contracts to manage our foreign currency exposures to net investments of subsidiaries with local functional currencies that differ from their parent subsidiaries. These contracts are designated as net investment hedges at the date of contract inception, in accordance with the appropriate accounting guidance. These contracts are accounted for using the spot method with changes in the fair value of the contracts attributable to changes in spot rates recorded within foreign currency translation (loss) gain as a component of AOCL, where it will remain until the hedged net investments are sold or substantially liquidated. The company has elected to exclude the changes in the fair value attributable to time value and spot-forward rate differences (the “Excluded Net Investment Hedge Components”) from the assessment of the hedge effectiveness. The changes in fair value attributable to the Excluded Net Investment Hedge Components on Cross Currency Swap Contracts are recognized into interest expense, net of interest income in the consolidated statements of operations on a systematic and rational basis through the swap accrual over the life of the hedging instrument. As of June 30, 2026 and December 31, 2025, the total notional amount of these swaps was \$5.5 billion and \$3.9 billion, respectively. The swaps will mature between 2026 and 2045.

The following table summarizes the gains and losses recognized within AOCL and net income related to the cross-currency swap contracts designated as net investment hedges for the three and six months ended June 30, 2026 and 2025 (dollars in millions):

	Three Months Ended June 30,		Six Months Ended June 30,

Concentrations of Credit Risk

The company is exposed to the risk of credit loss in the event of nonperformance by counterparties to derivative contracts. Counterparties to our derivative contracts are major financial institutions with whom we have negotiated derivatives agreements (International Swaps and Derivatives Association, Inc. or “ISDA” master agreements) and credit support annex (“CSA”) agreements which provide rules for collateral exchange. Certain of these CSA agreements contain date and exposure thresholds after which either we or our counterparties may be required to hold or post collateral based upon changes in outstanding positions. Under these agreements, neither we, nor our counterparties, were required to post collateral as of either June 30, 2026 or December 31, 2025. While we may be exposed to credit losses due to the nonperformance of our counterparties, we consider the risk remote and do not expect that any such nonperformance would result in a significant impact on our results of operations or financial condition due to our diversified pool of counterparties. In addition to the above, the ISDA master agreements contain master netting provisions providing certain legal rights and abilities to offset exposures across trades with each counterparty. Notwithstanding any such rights, the company presents derivative balances on a “gross” basis in the Statement of Financial Position.

9. Investments in Unconsolidated Subsidiaries

Investments in unconsolidated subsidiaries are accounted for under the equity method of accounting. Our investment ownership percentages in equity method investments vary, generally ranging from 1% to 50%. The following table represents the composition of investments in unconsolidated subsidiaries under the equity method of accounting and fair value option (dollars in millions):

Investment type	June 30, 2026	December 31, 2025
Real estate investments (in projects and funds)	\$ 753	\$ 772
Other	100	98
Total investment in unconsolidated subsidiaries	<u>\$ 853</u>	<u>\$ 870</u>

Combined condensed financial information for the entities accounted for using the equity method is as follows (dollars in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
<i>Combined Condensed Statements of Operations Information:</i>

Operating income	335	293	672	536
Net income ⁽¹⁾	88	117	28	308

⁽¹⁾ Included in Net income are realized and unrealized earnings and losses in investments in unconsolidated investment funds and realized earnings and losses from sales of real estate projects in investments in unconsolidated subsidiaries. These realized and unrealized earnings and losses are not included in Revenue and Operating income.

During the three and six months ended June 30, 2026, we recognized other-than-temporary losses related to equity method investments of \$8 million and \$13 million, respectively. We also recognized non-cash asset impairment charges on real estate assets of \$2 million and \$5 million, respectively.

During three and six months ended June 30, 2025, we recorded non-cash asset impairment charges of \$20 million related to equity method investments. There were no asset impairment charges or other significant non-recurring fair value measurement adjustments recorded during the three and six months ended June 30, 2025.

We maintain credit facilities with third-party lenders, which we use for a variety of purposes. On July 10, 2023, CBRE Group, Inc. (CBRE Group), CBRE Services, Inc. (CBRE Services) and Relam Amsterdam Holdings B.V., a wholly owned subsidiary of CBRE Services (Relam Borrower), entered into a 5-year senior unsecured Credit Agreement (2023 Credit Agreement) maturing on July 10, 2028, which refinanced and replaced a prior credit agreement. The 2023 Credit Agreement provides for a senior unsecured term loan credit facility comprised of (i) tranche A Euro-denominated term loans in an aggregate principal amount of €367 million (Tranche A (Euro) Loans) and (ii) tranche A U.S. Dollar-denominated term loans in an aggregate principal amount of \$350 million (Tranche A (USD) Loans), both requiring quarterly principal payments beginning on December 31, 2024 and continuing through maturity on July 10, 2028. The proceeds of the term loans under the 2023 Credit Agreement were applied to the repayment of all remaining outstanding senior term loans under the prior 2022 Credit Agreement, the payment of related fees and expenses and other general corporate purposes.

On March 13, 2025, CBRE Group, CBRE Services and Relam Borrower entered into Amendment No. 1 to the 2023 Credit Agreement, which provided for, among other things, the ability of Relam Borrower to obtain incremental commitments and loans under the 2023 Credit Agreement in an aggregate principal amount of \$750 million (or the Euro equivalent). On March 14, 2025, CBRE Group, CBRE Services and Relam Borrower entered into Amendment No. 2 and Incremental Assumption Agreement to the 2023 Credit Agreement, pursuant to which Relam Borrower incurred incremental term loans (i) denominated in Euros in the aggregate principal amount of €425 million (Incremental Euro Term Loans) and (ii) denominated in U.S. Dollars in the aggregate principal amount of \$125 million (Incremental USD Term Loans). The Incremental Euro Term Loans have the same terms applicable to, and constitute the same class as, the Tranche A (Euro) Loans, and the Incremental USD Term Loans have the same terms applicable to, and constitute the same class as, the Tranche A (USD) Loans under the 2023 Credit Agreement. The proceeds of the Incremental Euro Term Loans and the Incremental USD Term Loans were used for working capital and other general corporate purposes (including the partial repayment of borrowings under the commercial paper program), and to pay fees and expenses incurred in connection with entering into the amendments to the 2023 Credit Agreement. On June 24, 2025, CBRE Group, CBRE Services and Relam Borrower entered into Amendment No. 3 to the 2023 Credit Agreement, for the purpose of, among other things, amending the financial covenants to remove the interest coverage ratio covenant and to increase certain baskets and thresholds in the 2023 Credit Agreement in a manner consistent with the terms of the Revolving Credit Agreements described below.

We entered into a cross-currency swap to hedge the associated foreign currency exposure related to the Tranche A (USD) Loans and the Incremental USD Term Loans. See Note 8 – Derivatives and Hedging Activities.

Borrowings denominated in euros under the 2023 Credit Agreement bear interest at a rate equal to (i) the applicable percentage plus (ii) at our option, either (1) the EURIBOR rate for the applicable interest period or (2) a rate determined by reference to Daily Simple Euro Short-Term Rate (ESTR). Borrowings denominated in U.S. dollars under the 2023 Credit Agreement bear interest at a rate equal to (i) the applicable percentage, plus (ii) at our option, either (1) a Term SOFR rate published by CME Group Benchmark Administration Limited for the applicable interest period plus 10 basis points (Adjusted Term SOFR) or (2) a base rate determined by the reference to the greatest of (x) the prime rate, (y) the federal funds rate plus 1/2 of 1% and (z) the sum of (A) a Term SOFR rate published by CME Group Benchmark Administration Limited for an interest period of one month and (B) 1.00%. The applicable rate for borrowings under the 2023 Credit Agreement is determined by reference to our Credit Rating (as defined in the 2023 Credit Agreement). As of June 30, 2026, we had (i) \$829 million of euro term loan borrowings outstanding under the 2023 Credit Agreement (at an interest rate of 1.25% plus EURIBOR) and (ii) \$434 million of U.S. Dollar term loan borrowings outstanding under the 2023 Credit Agreement (at an interest rate of 1.25% plus Adjusted Term SOFR), net of unamortized debt issuance costs, included in the accompanying consolidated balance sheets.

The term loan borrowings under the 2023 Credit Agreement are guaranteed on a senior basis by CBRE Group and CBRE Services.

The 2023 Credit Agreement also requires us to maintain a maximum leverage ratio of total debt less available cash to consolidated EBITDA (as defined in the 2023 Credit Agreement) of 4.25x (and in the case of the first four full fiscal quarters following consummation of a qualified acquisition (as defined in the 2023 Credit Agreement), 4.75x) as of the end of each fiscal quarter. In addition, the 2023 Credit Agreement also contains other customary affirmative and negative covenants and events of default. We were in compliance with the covenants under this agreement as of June 30, 2026.

On May 4, 2026, CBRE Services issued \$750 million in aggregate principal amount of 5.250% senior notes due June 1, 2036 (the 5.250% senior notes) at a price equal to 98.947% of their face value. The 5.250% senior notes are unsecured obligations of CBRE Services, senior to all of its current and future subordinated indebtedness. The 5.250% senior notes are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 5.250% per year and is payable semi-annually in arrears on June 1 and December 1 of each year, beginning on December 1, 2026. The 5.250% senior notes are redeemable at our option, in whole or in part, on or after March 1, 2036 at a redemption price of 100% of the principal amount on that date, plus accrued and unpaid interest, if any, to, but excluding the date of redemption. At any time prior to March 1, 2036, we may redeem all or a portion of the notes at a redemption price equal to the greater of (1) 100% of the principal amount of the notes to be redeemed and (2) the sum of the present value at the date of redemption of the remaining scheduled payments of principal and interest thereon to March 1, 2036, assuming the notes matured on March 1, 2036, discounted to the date of redemption on a semi-annual basis at an adjusted rate equal to the treasury rate plus 20 basis points, minus accrued interest to the date of redemption, plus, in either case, accrued and unpaid interest, if any, to the redemption date.

On November 13, 2025, CBRE Services issued \$750 million in aggregate principal amount of 4.900% senior notes due January 15, 2033 (the 4.900% senior notes) at a price equal to 99.813% of their face value. The 4.900% senior notes are unsecured obligations of CBRE Services, senior to all of its current and future subordinated indebtedness. The 4.900% senior notes are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 4.900% per year and is payable semi-annually in arrears on January 15 and July 15 of each year, beginning on July 15, 2026.

On May 12, 2025, CBRE Services issued \$600 million in aggregate principal amount of 4.800% senior notes due June 15, 2030 (the 4.800% senior notes) at a price equal to 99.065% of their face value. The 4.800% senior notes are unsecured obligations of CBRE Services, senior to all of its current and future subordinated indebtedness. The 4.800% senior notes are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 4.800% per year and is payable semi-annually in arrears on June 15 and December 15 of each year, beginning on December 15, 2025.

On May 12, 2025, CBRE Services issued \$500 million in aggregate principal amount of 5.500% senior notes due June 15, 2035 (the 2035 5.500% senior notes) at a price equal to 99.549% of their face value. The 2035 5.500% senior notes are unsecured obligations of CBRE Services, senior to all of its current and future subordinated indebtedness. The 2035 5.500% senior notes are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 5.500% per year and is payable semi-annually in arrears on June 15 and December 15 of each year, beginning on December 15, 2025.

On February 23, 2024, CBRE Services issued \$500 million in aggregate principal amount of 5.500% senior notes due April 1, 2029 (the 2029 5.500% senior notes) at a price equal to 99.837% of their face value. The 2029 5.500% senior notes are unsecured obligations of CBRE Services, senior to all of its current and future subordinated indebtedness. The 2029 5.500% senior notes are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 5.500% per year and is payable semi-annually in arrears on April 1 and October 1 of each year, beginning on October 1, 2024.

On June 23, 2023, CBRE Services issued \$1.0 billion in aggregate principal amount of 5.950% senior notes due August 15, 2034 (the 5.950% senior notes) at a price equal to 98.174% of their face value. The 5.950% senior notes are unsecured obligations of CBRE Services, senior to all of its current and future subordinated indebtedness. The 5.950% senior notes are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 5.950% per year and is payable semi-annually in arrears on February 15 and August 15 of each year, beginning on February 15, 2024.

On March 18, 2021, CBRE Services issued \$500 million in aggregate principal amount of 2.500% senior notes due April 1, 2031 (the 2.500% senior notes) at a price equal to 98.451% of their face value. The 2.500% senior notes are unsecured obligations of CBRE Services, senior to all of its current and future subordinated indebtedness. The 2.500% senior notes are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 2.500% per year and is payable semi-annually in arrears on April 1 and October 1 of each year.

The indentures governing our outstanding senior notes described above (1) contain restrictive covenants that, among other things, limit our ability to create or permit liens on assets securing indebtedness, enter into sale/leaseback transactions and enter into consolidations or mergers, and (2) require that the notes be jointly and severally guaranteed on a senior basis by CBRE Group and any domestic subsidiary that guarantees the 2023 Credit Agreement or the Revolving Credit Agreements (as defined below). The indentures also contain other customary affirmative and negative covenants and events of default. We were in compliance with the covenants under our debt instruments as of June 30, 2026.

Short-Term Borrowings

Revolving Credit Agreements

On June 24, 2025, we entered into a 5-year senior unsecured Revolving Credit Agreement (the 5-Year Revolving Credit Agreement) which replaced our prior revolving credit agreement dated August 5, 2022. The 5-Year Revolving Credit Agreement provides for a senior unsecured revolving credit facility available to CBRE Services with commitments in an aggregate principal amount of up to \$3.5 billion and a maturity date of June 24, 2030. Borrowings bear interest at (i) our option, either (a) a Term SOFR rate published by CME Group Benchmark Administration Limited for the applicable interest period or (b) a base rate determined by reference to the greatest of (1) the prime rate determined by Wells Fargo, (2) the federal funds rate plus 1/2 of 1% and (3) the sum of (x) a Term SOFR rate published by CME Group Benchmark Administration Limited for an interest period of one month and (y) 1.00% plus (ii) a rate equal to an applicable rate (in the case of borrowings based on the Term SOFR rate, 0.630% to 1.100% and in the case of borrowings based on the base rate, 0.0% to 0.100%, in each case, as determined by reference to our Debt Rating (as defined in the 5-Year Revolving Credit Agreement)).

The 5-Year Revolving Credit Agreement requires us to pay a fee based on the total amount of the revolving credit facility commitment (whether used or unused). In addition, the 5-Year Revolving Credit Agreement also includes capacity for letters of credit not to exceed \$300 million in the aggregate and capacity for swingline loans not to exceed \$300 million in the aggregate.

The 5-Year Revolving Credit Agreement also requires us to maintain a maximum leverage ratio of total debt less available cash to consolidated EBITDA (as defined in the 5-Year Revolving Credit Agreement) of 4.25x (and in the case of the first four full fiscal quarters following consummation of a qualified acquisition (as defined in the 5-Year Revolving Credit Agreement), 4.75x) as of the end of each fiscal quarter. In addition, the 5-Year Revolving Credit Agreement also contains other customary affirmative and negative covenants and events of default. We were in compliance with the covenants under this agreement as of June 30, 2026.

As of June 30, 2026, no amount was outstanding under the revolving credit facility provided for by the 5-Year Revolving Credit Agreement. \$24 million of letters of credit were outstanding as of June 30, 2026. As of December 31, 2025, no amount was outstanding under this revolving credit facility. \$17 million of letters of credit were outstanding as of December 31, 2025. Letters of credit are issued in the ordinary course of business and reduce the amount we may borrow under this revolving credit facility.

CBRE GROUP, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

On June 23, 2026, we entered into a new 364-day senior unsecured Revolving Credit Agreement (the 364-Day Revolving Credit Agreement, and together with the 5-Year Revolving Credit Agreement, the Revolving Credit Agreements), which replaced our prior 364-day revolving credit agreement dated June 24, 2025. The 364-Day Revolving Credit Agreement provides for a senior unsecured revolving credit facility available to CBRE Services with commitments in an aggregate principal amount of up to \$1.0 billion and a maturity date of June 22, 2027. Borrowings bear interest at (i) our option, either (a) a Term SOFR rate published by CME Group Benchmark Administration Limited for the applicable interest period or (b) a base rate determined by reference to the greatest of (1) the prime rate determined by Wells Fargo, (2) the federal funds rate plus 1/2 of 1% and (3) the sum of (x) a Term SOFR rate published by CME Group Benchmark Administration Limited for an interest period of one month and (y) 1.00%, plus (ii) a rate equal to an applicable rate (in the case of borrowings based on the Term SOFR rate, 0.645% to 1.125% and in the case of borrowings based on the base rate, 0.0% to 0.100%, in each case, as determined by reference to our Debt Rating (as defined in the 364-Day Revolving Credit Agreement)).

The 364-Day Revolving Credit Agreement requires us to pay a fee based on the total amount of the revolving credit facility commitment (whether used or unused).

The 364-Day Revolving Credit Agreement also requires us to maintain a maximum leverage ratio of total debt less available cash to consolidated EBITDA (as defined in the 364-Day Revolving Credit Agreement) of 4.25x (and in the case of the first four full fiscal quarters following consummation of a qualified acquisition (as defined in the 364-Day Revolving Credit Agreement), 4.75x) as of the end of each fiscal quarter. In addition, the 364-Day Revolving Credit Agreement also contains other customary affirmative and negative covenants and events of default. We were in compliance with the covenants under this agreement as of June 30, 2026.

As of June 30, 2026, no amount was outstanding under the revolving credit facility provided for by the 364-Day Revolving Credit Agreement. As of December 31, 2025, no amount was outstanding under our prior 364-day revolving credit facility.

Commercial Paper Program

On December 2, 2024, CBRE Services established a commercial paper program pursuant to which we may issue and sell up to \$3.5 billion of short-term, unsecured and unsubordinated commercial paper notes with up to 397-day maturities, under the exemption from registration contained in Section 4(a)(2) of the Securities Act of 1933, as amended. Amounts available under the program may be borrowed, repaid and re-borrowed from time to time. Payment of the commercial paper notes is guaranteed on an unsecured and unsubordinated basis by CBRE Group. The commercial paper notes and the guarantee rank pari passu with all other unsecured and unsubordinated indebtedness. The proceeds from issuances under the program may be used for general corporate purposes. As of June 30, 2026, we had \$1.6 billion in borrowings outstanding under our commercial paper program with a weighted-average annual interest rate of 4.08%. As of December 31, 2025, we had \$852 million in borrowings outstanding under our commercial paper program. At any point in time, the company intends to maintain available commitments under the 5-Year Revolving Credit Agreement in an amount at least equal to the amount of the commercial paper notes outstanding.

Turner & Townsend Revolving Credit Facility

Turner & Townsend previously maintained a £120 million revolving credit facility pursuant to a credit agreement dated March 31, 2022, with an additional accordion option of £20 million, that was scheduled to mature on March 31, 2027. Effective June 30, 2026, the Turner & Townsend credit agreement for the revolving credit facility was terminated and the facility has not been subsequently replaced as of the date of this report. As of December 31, 2025, no amount was outstanding under the Turner & Townsend revolving credit facility.

Warehouse Lines of Credit

CBRE Capital Markets has warehouse lines of credit with third-party lenders for the purpose of funding mortgage loans that will be resold, and a funding arrangement with Fannie Mae for the purpose of selling a percentage of certain closed multifamily loans to Fannie Mae. These warehouse lines are recourse only to CBRE Capital Markets and related subsidiaries, based on the related deal type, which are secured by our related warehouse receivables. See Note 4 – Warehouse Receivables & Warehouse Lines of Credit for additional information.

For additional information regarding our long-term debt and short-term borrowings, see Note 12 – Long-Term Debt and Short-Term Borrowings to our Consolidated Financial Statements for fiscal year 2025, included in the [2025 Annual Report](#), and Management's Discussion and Analysis of Financial Condition and Results of Operations included in this quarterly report.

Supplemental cash flow information and non-cash activity related to our operating and finance leases are as follows (dollars in millions):

	Six Months Ended June 30,	
	2026	2025
Right-of-use assets obtained in exchange for new operating lease liabilities ⁽¹⁾	\$ 205	\$ 781
Right-of-use assets obtained in exchange for new finance lease liabilities	39	40
Other non-cash increases in operating lease right-of-use assets ⁽²⁾	3	69
Other non-cash decreases in finance lease right-of-use assets ⁽²⁾	(8)	(5)

⁽¹⁾ Right-of-use assets obtained in exchange for new operating lease liabilities for the six months ended June 30, 2026 decreased compared to the six months ended June 30, 2025, primarily due to leases acquired in conjunction with the Industrious acquisition in January 2025.

⁽²⁾ The non-cash activity in the right-of-use assets resulted from lease modifications/remeasurements and terminations.

12. Commitments and Contingencies

We are a party to a number of pending or threatened lawsuits arising out of, or incident to, our ordinary course of business. We believe that any losses in excess of the amounts accrued as liabilities on our consolidated financial statements are unlikely to be significant, but litigation is inherently uncertain and there is the potential for a material adverse effect on our consolidated financial statements if one or more matters are resolved in a particular period in an amount materially in excess of what we anticipated.

In January 2008, CBRE MCI, a wholly-owned subsidiary of CBRE Capital Markets, entered into an agreement with Fannie Mae under Fannie Mae's Delegated Underwriting and Servicing Lender Program (DUS Program) to provide financing for multifamily housing with five or more units. Under the DUS Program, CBRE MCI originates, underwrites, closes and services loans without prior approval by Fannie Mae, and typically, is subject to sharing up to one-third of any losses on loans originated under the DUS Program. CBRE MCI has funded loans with unpaid principal balances of \$51.0 billion at June 30, 2026, of which \$48.5 billion is subject to such loss sharing arrangements. CBRE MCI, under its agreement with Fannie Mae, must post cash reserves or other acceptable collateral under formulas established by Fannie Mae to provide for sufficient capital in the event losses occur. As of both June 30, 2026 and December 31, 2025, CBRE MCI had \$165 million of letters of credit under this reserve arrangement and had recorded a liability of approximately \$83 million and \$79 million as of June 30, 2026 and December 31, 2025, respectively, for its loan loss guarantee obligation under such arrangement. Fannie Mae's recourse under the DUS Program is limited to the assets of CBRE MCI, which assets totaled approximately \$771 million (including

\$167 million of warehouse receivables, which are pledged against warehouse lines of credit and are therefore not available to Fannie Mae) at June 30, 2026.

CBRE Capital Markets participates in Freddie Mac's Multifamily Small Balance Loan (SBL) Program. Under the SBL Program, CBRE Capital Markets has certain repurchase and loss reimbursement obligations. We could potentially be obligated to repurchase any SBL loan originated by CBRE Capital Markets that remains in default for 120 days following the forbearance period, if the default occurred during the first 12 months after origination and such loan had not been earlier securitized. In addition, CBRE Capital Markets may be responsible for a loss not to exceed 10% of the original principal amount of any SBL loan that is not securitized and goes into default after the 12-month repurchase period. CBRE Capital Markets must post a cash reserve or other acceptable collateral to provide for sufficient capital in the event the obligations are triggered. As of both June 30, 2026 and December 31, 2025, CBRE Capital Markets had posted a \$5 million letter of credit under this reserve arrangement.

Letters of Credit

We had outstanding letters of credit totaling \$344 million as of June 30, 2026, excluding letters of credit for which we have outstanding liabilities already accrued on our consolidated balance sheets related to our subsidiaries' outstanding reserves for claims under certain insurance programs as well as letters of credit related to operating leases. The CBRE Capital Markets letters of credit totaling \$170 million as of June 30, 2026 referred to in the preceding paragraphs are included in the \$344 million outstanding letters of credit as of such date. The remaining letters of credit are primarily executed by us in the ordinary course of business and expire at the end of each of the respective agreements.

Guarantees

We had guarantees totaling \$318 million as of June 30, 2026, excluding guarantees related to pension liabilities, operating leases, consolidated indebtedness and other obligations for which we have outstanding liabilities already accrued on our consolidated balance sheets. The \$318 million primarily represents guarantees executed by us in the ordinary course of business, including various guarantees of management and vendor contracts in our operations overseas, which expire at the end of each of the respective agreements.

In addition, as of June 30, 2026, we had issued numerous non-recourse carveout, completion and budget guarantees relating to development projects for the benefit of third parties. These guarantees are commonplace in our industry and are made by us in the ordinary course of our REI business. Non-recourse carveout guarantees generally require that our project-entity borrower not commit specified improper acts, with us potentially liable for all or a portion of such entity's indebtedness or other damages suffered by the lender if those acts occur. Completion and budget guarantees generally require us to complete construction of the relevant project within a specified timeframe and/or within a specified budget, with us potentially being liable for costs to complete in excess of such timeframe or budget. While there can be no assurance, we do not expect to incur any material losses under these guarantees.

Performance and Payment Bonds

In the ordinary course of business, we are required by certain customers to provide performance and payment bonds for contractual commitments related to our projects. These bonds provide a guarantee to the customer that the company will perform under the terms of a contract and that we will pay our subcontractors and vendors. If we fail to perform under a contract or to pay our subcontractors and vendors, the customer may demand that the surety make payments or provide services under the bond. We must reimburse the surety for expenses or outlays it incurs. As of June 30, 2026 and December 31, 2025, outstanding performance and payment bonds were \$1.2 billion and \$1.0 billion, respectively.

Deferred and Contingent Consideration

The purchase price for our business acquisitions often includes deferred and contingent consideration. Contingent consideration is measured at fair value each reporting period using significant unobservable inputs (see Note 7 – Fair Value Measurements). As of June 30, 2026 and December 31, 2025, we had short-term deferred and contingent consideration of \$132 million and \$149 million, respectively, which was included within accounts payable and accrued expenses, and long-term deferred and contingent consideration of \$109 million and \$130 million, respectively, which was included within other liabilities in the accompanying consolidated balance sheets.

Indirect Taxes

The company is subject to indirect taxes, including sales and use tax in the United States and value-add tax in certain foreign jurisdictions in which it conducts business. The company had indirect tax liabilities primarily related to sales and use tax of \$106 million and \$90 million for June 30, 2026 and December 31, 2025, respectively. Indirect tax liabilities are adjusted considering changing facts and circumstances, such as the closing of a tax examination, further interpretation of existing or new tax laws and acquisitions or divestitures. We are currently under audit in several jurisdictions. In accordance with FASB ASC Topic 450, “Contingencies,” the company establishes accruals for contingencies, including uncertainties related to taxes not based on income, when the company believes it is probable that a loss has been incurred, and the amount of the loss can be reasonably estimated.

Other

An important part of the strategy for our REI segment involves co-investing our capital in certain real estate investments with our clients. For our investment funds, we generally co-invest a minority interest of the equity in a particular fund. As of June 30, 2026, we had aggregate future commitments of \$177 million related to co-investment funds. Additionally, we make selective investments in real estate development projects on our consolidated account or co-invest with our clients with up to 50% of the project’s equity as a principal in unconsolidated real estate projects. We had unfunded capital commitments of \$145 million and \$63 million to consolidated and unconsolidated projects, respectively, as of June 30, 2026.

Also refer to Note 17 – Telford Fire Safety Remediation for the details relating to the provision associated with fire safety remediation efforts by our subsidiary, Telford Homes.

13. Income Taxes

Our provision for income taxes on a consolidated basis was \$68 million for the three months ended June 30, 2026 as compared to a provision for income taxes of \$61 million for the three months ended June 30, 2025. The increase of \$7 million is primarily related to an increase in earnings. Our effective tax rate increased to 21.6% for the three months ended June 30, 2026 from 20.3% for the three months ended June 30, 2025.

Our provision for income taxes on a consolidated basis was \$180 million for the six months ended June 30, 2026 as compared to a provision for income taxes of \$113 million for the six months ended June 30, 2025. The increase of \$67 million is primarily related to an increase in earnings. Our effective tax rate increased to 23.4% for the six months ended June 30, 2026 from 20.8% for the six months ended June 30, 2025.

Our effective tax rates for the three and six months ended June 30, 2026 were different than the U.S. federal statutory tax rate of 21.0% primarily due to the U.S. state taxes and permanent book tax differences.

On July 4, 2025, the U.S. federal government enacted H.R.1, the One Big Beautiful Bill Act (OBBBA), a budget reconciliation package that changes the U.S. federal income tax laws, including extensions of various expiring provisions from the Tax Cuts and Jobs Act of 2017. The 2026 impacts of the OBBBA are insignificant based on our current operations.

As of June 30, 2026 and December 31, 2025, the company had gross unrecognized tax benefits of \$386 million and \$364 million, respectively.

Weighted-average shares outstanding for basic income per share	291,824,424	297,950,927	293,089,123	299,113,472
Dilutive effect of contingently issuable shares	2,035,185	2,057,495	2,322,548	2,341,781
Weighted-average shares outstanding for diluted income per share	293,859,609	300,008,422	295,411,671	301,455,253
Diluted income per share attributable to CBRE Group, Inc. stockholders	\$ 0.69	\$ 0.72	\$ 1.77	\$ 1.25

For the three and six months ended June 30, 2026, 763,437 and 371,169, respectively, of contingently issuable shares were excluded from the computation of diluted income per share because their inclusion would have had an anti-dilutive effect.

For the three and six months ended June 30, 2025, 639,807 and 412,610, respectively, of contingently issuable shares were excluded from the computation of diluted income per share because their inclusion would have had an anti-dilutive effect.

Stock Repurchase Program

On November 21, 2024, our board of directors authorized an additional \$5.0 billion to our existing \$4.0 billion share repurchase program (as amended, the 2024 program) bringing the total authorized amount under the 2024 program to a total of \$9.0 billion as of June 30, 2026. The board also extended the term of the 2024 program through December 31, 2029.

During the three months ended June 30, 2026, we repurchased 3,096,341 shares of our common stock with an average price of \$133.94 per share for an aggregate of \$414 million under the 2024 program. During the six months ended June 30, 2026, we repurchased 6,678,628 shares of our common stock with an average price of \$141.55 per share for an aggregate of \$945 million under the 2024 program. As of June 30, 2026, we had approximately \$3.9 billion of capacity remaining under the 2024 program.

During the three months ended June 30, 2025, we repurchased 2,123,191 shares of our common stock with an average price of \$120.43 per share for an aggregate of \$256 million under the 2024 program. During the six months ended June 30, 2025, we repurchased 5,185,163 shares of our common stock with an average price of \$127.82 per share for an aggregate of \$663 million under the 2024 program.

15. Revenue from Contracts with Customers

We account for revenue with customers in accordance with FASB ASC Topic 606, “Revenue from Contracts with Customers” (Topic 606). Revenue is recognized when, or as control of, the promised services is transferred to our customers, in an amount that reflects the consideration we expect to be entitled to receive in exchange for those services.

Contract Assets and Liabilities

We had contract assets totaling \$592 million (\$520 million of which was current) and \$565 million (\$462 million of which was current) as of June 30, 2026 and December 31, 2025, respectively.

We had contract liabilities totaling \$469 million (all of which was current) and \$448 million (all of which was current) as of June 30, 2026 and December 31, 2025, respectively. During the six months ended June 30, 2026, we recognized revenue of \$242 million, that was included in the contract liability balance at December 31, 2025.

16. Segments

We organize our operations around and publicly report our financial results on four reportable segments – Advisory Services, BOE, Project Management and REI. In addition, we also have a “Corporate, other and eliminations” segment. Our Corporate segment primarily consists of corporate costs for leadership and certain other central functions. We track our strategic non-core equity investments in “other” which is considered an operating segment and reported together with Corporate as it does not meet the aggregation criteria for presentation as a separate reportable segment. These activities are not allocated to the other business segments. Corporate and other also includes eliminations related to inter-segment revenue.

On January 1, 2026, we transferred the data center project work that is integrated with our Data Center Services facilities management business from the Project Management segment to the BOE segment. We have recast prior period segment results to conform with the current presentation.

Segment operating profit (SOP) is the measure reported to Robert Sulentic, CBRE’s Chair and Chief Executive Officer (CEO), who is our chief operating decision maker (CODM) for purposes of assessing performance and allocating resources to each segment. The CODM uses SOP results compared to prior periods and previously forecasted amounts to assess performance and identify trends of ongoing operations within each segment. SOP excludes the impact of certain costs and charges that may obscure the underlying performance of our businesses and related trends, including restructuring charges and other costs incurred, which are outside the ordinary course of business. SOP represents earnings, inclusive of amounts attributable to non-controlling interests, before net interest expense, write-off of financing costs on extinguished debt, income taxes, depreciation and amortization, and asset impairments. In addition, management excludes the following costs from SOP (Other segment adjustments):

- net non-cash mortgage servicing rights,
- integration and other costs related to acquisitions,
- carried interest incentive compensation (reversal) expense to align with the timing of associated revenue,
- charges related to indirect tax audits and settlements,
- net results related to the wind-down of certain businesses,
- impact of fair value non-cash adjustments related to unconsolidated equity investments,
- business and finance transformation,
- costs associated with efficiency and cost-reduction initiatives, and
- provision associated with Telford’s fire safety remediation efforts.

There have been no significant changes to the measurement methods of expenses or methods of allocating expenses to segments during 2026.

17. Telford Fire Safety Remediation

The accompanying consolidated balance sheets include an estimated liability of approximately \$456 million and \$321 million as of June 30, 2026 and December 31, 2025, respectively, related to fire safety remediation efforts for buildings historically developed by our subsidiary, Telford Homes. The \$135 million net increase compared to year end 2025 reflects an expansion in the estimated scope and cost of remediation works of \$168 million, net of the amount spent during the period. The primary drivers of the increase are fire engineer assessments, updated surveys, design evolution, regulatory feedback, the addition of internal fire containment work and incremental direct program costs.

The estimated cost of remediation is based on the best information available at the reporting date and reflects the subjective, complex, and variable nature of these remediation activities. Significant assumptions include building-specific remediation requirements, expected timing of completion, construction and remediation costs, availability of materials and

qualified fire safety professionals, potential discoveries during remediation, and changes in regulatory requirements and approvals.

We continue to actively monitor regulatory developments and remediation progress and will update our estimates as additional information becomes available.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Management’s Discussion and Analysis of Financial Condition and Results of Operations (MD&A) provides the reader with management’s perspective on our financial condition, results of operations, liquidity and certain other factors that may affect future results. The MD&A in this Quarterly Report on Form 10-Q (Quarterly Report) for CBRE Group, Inc. for the three and six months ended June 30, 2026 should be read in conjunction with our consolidated financial statements and related notes included in our [2025 Annual Report on Form 10-K \(2025 Annual Report\)](#) as well as the unaudited financial statements included elsewhere in this Quarterly Report.

In addition, the statements and assumptions in this Quarterly Report that are not statements of historical fact are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 or Section 21E of the Securities Exchange Act of 1934, each as amended, including, in particular, statements about our plans, strategies and prospects as well as estimates of industry growth for the next quarter and beyond. For important information regarding these forward-looking statements, please see the discussion below under the caption “Cautionary Note on Forward-Looking Statements.”

Beginning with first-quarter 2026 results, we reclassified amortization associated with MSRs (mortgage servicing rights) to net against the related revenue (commercial mortgage origination). Historically, we have recognized the corresponding MSR intangible asset as an amortization expense over the estimated mortgage service period. Prior year amounts have been reclassified to conform with the 2026 presentation.

Business Environment

The strong recovery of the commercial real estate market continued in the first half of 2026. This is reflected in increased property leasing and sales activity, particularly in the U.S. Leasing activity in the U.S. remained strong across all property types, led by industrial and office, while global activity continued to strengthen in international markets as well. During the second quarter, investment sales activity improved significantly in the U.S., while growth was more modest in overseas markets. Investment activity has been supported by broad capital availability, improved occupancy market fundamentals and narrower bid-ask spreads. Large occupiers’ growing appetite for outsourcing services continued to underpin demand for facilities management and project management activities, while the outsized growth of Artificial Intelligence investments and data center buildouts has fueled continued strong demand for critical infrastructure services. Through the first half of 2026, the ongoing Middle East conflict has had limited impact on CBRE’s business except for a slowdown in fundraising from capital sources based in the region.

Capital Allocation

We deployed \$988 million in 2026 to repurchase 6,984,186 shares as of July 27, 2026.

Three Months Ended June 30, 2026 Compared to the Three Months Ended June 30, 2025

We reported consolidated net income of \$204 million for the quarter, on revenue of \$11.2 billion as compared to consolidated net income of \$215 million on revenue of \$9.7 billion in the prior year.

Revenue increased 15.5% reflecting double-digit growth across the Advisory Services, Building Operations & Experience (BOE) and Project Management segments, partially offset by a decrease in revenue in the Real Estate Investments (REI) segment.

Foreign currency translation had a 1.2% positive impact on revenue, reflecting strength in the euro, Australian dollar and British pound sterling partially offset by weakness in the Indian rupee.

Pass-through costs increased 13.1% during the quarter as compared to the same period in prior year primarily due to revenue growth in the BOE and Project Management segments. Foreign currency translation had a 1.1% negative impact on pass-through costs.

Cost of revenue, excluding pass-through costs increased 17.1% during the quarter as compared to the same period in prior year primarily reflecting business growth and higher employee compensation and commission expenses. Foreign currency translation had a 1.3% negative impact on total cost of revenue, excluding pass-through costs. Cost of revenue, excluding pass-through costs increased to 40.2% of total revenue from 39.7% driven by higher costs to support growth in revenues.

Operating, administrative and other expenses increased 20.5% during the quarter as compared to the same period in prior year. The increase was primarily due to an increase in the provision related to fire safety remediation efforts for buildings historically developed by our subsidiary, Telford Homes (see Note 17 – Telford Fire Safety Remediation). In addition, operating, administrative and other expenses increased due to higher employee compensation expense, driven by business growth. Foreign currency translation had a 1.3% negative impact on total operating expenses during the quarter. Operating, administrative and other expenses as a percentage of revenue increased to 13.7% in the second quarter 2026 from 13.1% in the second quarter 2025, as operating expenses grew higher than revenue.

Depreciation and amortization expense increased by 31.0% during the quarter, as compared to the same period in prior year, reflecting higher amortization expense related to intangible assets from recent acquisitions, such as Pearce.

Gain on disposition of real estate decreased by \$14 million during the quarter, driven by lower sales of real estate development assets in the REI segment, compared to the prior year.

We recorded equity income from unconsolidated subsidiaries of approximately \$4 million, compared to equity loss of \$18 million in the second quarter 2025.

Interest expense, net of interest income, increased by 1.7%, compared with the second quarter 2025. This increase was primarily attributable to increased commercial paper borrowings and the issuance of \$750 million in senior notes, offset by the impact of net investment hedging activity.

Our provision for income taxes on a consolidated basis was \$68 million for the three months ended June 30, 2026 as compared to a provision for income taxes of \$61 million for the three months ended June 30, 2025. The increase of \$7 million is primarily related to an increase in earnings. Our effective tax rate increased to 21.6% for the three months ended June 30, 2026 from 20.3% for the three months ended June 30, 2025. Our effective tax rate for the three months ended June 30, 2026 is different than the U.S. federal statutory tax rate of 21.0% primarily due to the U.S. state taxes and permanent book tax differences.

Legislative Developments

The Organization for Economic Co-operation & Development (OECD) Pillar Two Model Rules established a minimum global effective tax rate of 15% on country-by-country profits of large multinational companies. European Union member states along with many other countries adopted or expect to adopt the OECD Pillar Two Model effective January 1, 2024 or thereafter. In January 2026, the OECD issued a comprehensive Side by Side Package, which introduces additional administrative guidance intended to enhance coordination and simplify aspects of the global minimum tax framework. The package includes several new safe harbors including the new Side by Side and Ultimate Parent Entity safe harbors that may deem certain top-up taxes to be zero in jurisdictions with qualifying minimum tax regimes, such as the United States. We will

continue to monitor additional administrative guidance and legislative action to incorporate the guidance into local law to assess the global impact of the Pillar Two Model Rules. The impact of Pillar Two top-up taxes is expected to be insignificant for 2026.

On July 4, 2025, the U.S. federal government enacted, H.R.1, the One Big Beautiful Bill Act (OBBBA), a budget reconciliation package that changes the U.S. federal income tax laws, including extensions of various expiring provisions from the Tax Cuts and Jobs Act of 2017. The 2026 impacts of the OBBBA are insignificant based on our current operations.

Six Months Ended June 30, 2026 Compared to the Six Months Ended June 30, 2025

We reported consolidated net income of \$522 million for the six months ended June 30, 2026 on revenue of \$21.8 billion as compared to consolidated net income of \$378 million on revenue of \$18.6 billion for the six months ended June 30, 2025.

Revenue increased 17.0%, reflecting double-digit growth across the Advisory Services, BOE and Project Management segments, partially offset by a decrease in revenue in the REI segment.

Foreign currency translation had a 2.6% positive impact on total revenue during the six months ended June 30, 2026, primarily driven by strength in the euro and British pound sterling, partially offset by weakness in the Indian rupee.

Pass-through costs increased 15.1% during the six months ended June 30, 2026 as compared to the same period in 2025 primarily due to revenue growth in the BOE and Project Management segments. Foreign currency translation had a 2.6% negative impact on pass-through costs.

Cost of revenue, excluding pass-through costs increased 19.4% during the six months ended June 30, 2026 as compared to the same period in 2025 reflecting business growth and higher employee compensation and commission expenses. Foreign currency translation had a 2.6% negative impact on total cost of revenue, excluding pass-through costs. Cost of revenue, excluding pass-through costs increased to 40.2% of total revenue from 39.4%.

Operating, administrative and other expenses increased 21.4% during the six months ended June 30, 2026 as compared to the same period last year primarily due to an increase in the provision related to fire safety remediation efforts for buildings historically developed by our subsidiary, Telford Homes (see Note 17 – Telford Fire Safety Remediation). In addition, operating, administrative and other expenses increased due to higher employee compensation expense, driven by business growth. Foreign currency translation had a 2.6% negative impact on total operating expenses during the six months ended June 30, 2026. Operating, administrative and other expenses as a percentage of revenue increased to 13.8% from 13.3%, as operating expenses grew higher than revenue.

Depreciation and amortization expense increased by 29.6% during the six months ended June 30, 2026 as compared to the same period in 2025, reflecting higher depreciation and amortization expense related to assets acquired from recent acquisitions, such as Pearce.

Gain on disposition of real estate increased by \$287 million during the six months ended June 30, 2026, driven by monetization of real estate development assets the REI segment.

We reported equity loss of \$5 million during the six months ended June 30, 2026 primarily driven by fair value adjustments related to our equity investments, compared to equity loss of \$2 million in the same period in 2025.

Interest expense, net of interest income, increased by 9.2% for the six months ended June 30, 2026, compared to the same period in 2025. This increase was primarily attributable to increased commercial paper borrowings and the issuance of \$750 million in senior notes, offset by the impact of net investment hedging activity.

Our provision for income taxes on a consolidated basis was \$180 million for the six months ended June 30, 2026 as compared to a provision for income taxes of \$113 million in 2025. The increase of \$67 million is primarily related to an increase in current year earnings. Our effective tax rate increased to 23.4% in six months ended June 30, 2026 as compared to 20.8% in 2025. Our effective tax rate for the six months ended June 30, 2026 is different than the U.S. federal statutory tax rate of 21.0% primarily due to the U.S. state taxes and permanent book tax differences.

Segment Operations

We organize our operations around, and publicly report our financial results for, four reportable business segments: (1) Advisory Services; (2) BOE; (3) Project Management; and (4) REI.

Advisory Services provides a comprehensive range of services globally, including leasing, capital markets (property sales and mortgage origination), loan servicing, and valuation. BOE provides a broad suite of integrated, contractually based outsourcing services to occupiers and owners of real estate, including facilities management, property management and critical infrastructure. Our Project Management business delivers program management and cost consultancy services across commercial real estate, infrastructure and natural resources sectors. REI is a major real assets developer, investor and operator and is comprised of two businesses: investment management and development services.

We also have a Corporate and Other segment. Corporate primarily consists of corporate overhead costs, and costs associated with our platform that are not allocated to segments, including corporate leadership costs. Other consists of activities from strategic non-core, non-controlling equity investments and is considered an operating segment but does not meet the aggregation criteria for presentation as a separate reportable segment and is, therefore, combined with Corporate and reported within Corporate and Other. It also includes eliminations related to inter-segment revenue. For additional information on our segments, see Note 16 – Segments of the Notes to Consolidated Financial Statements (Unaudited) set forth in Item 1 of this Quarterly Report.

Three Months Ended June 30, 2026 Compared to the Three Months Ended June 30, 2025

Revenue increased 17.7% during the quarter compared to the same period in 2025. Global leasing revenue rose 23.5%, led by office and industrial. The Americas grew 23.7%, with 23.5% growth in the United States; Europe, Middle East and Africa (EMEA); which grew 26.5% and Asia Pacific (APAC) which grew 18.9%. Property sales revenue grew 20.0%, driven primarily by growth in the U.S. across industrial, multifamily, retail and office, with Asia Pacific and EMEA also contributing to growth in the period.

Foreign currency translation had a 0.9% positive impact on total revenue during the quarter, primarily driven by strength in the Australian dollar and euro partially offset by weakness in the Japanese yen and Indian rupee.

Cost of revenue, excluding pass-through costs increased 18.0%, primarily reflecting business growth and higher commission expense, salaries and bonus. Foreign currency translation had a 1.0% negative impact on total cost of revenue, excluding pass-through costs.

Operating, administrative and other expenses increased by 10.8%, as compared to the same period in 2025, primarily due to higher employee compensation and bonus, and higher business promotion and advertising expense, driven by growth in the business. Foreign currency translation had a 1.3% negative impact on total operating expenses.

For the three months ended June 30, 2026, gross income from mortgage servicing rights (MSR) was \$27 million, offset by \$38 million of amortization of related intangible assets, resulting in a net reduction to commercial mortgage origination revenue of \$11 million. For the three months ended June 30, 2025, the comparable amounts were \$33 million and \$37 million, respectively, resulting in a net reduction of \$4 million. The increased net reduction reflects lower origination gains, as recent originations have shifted to shorter loan terms in a higher rate environment, with amortization remaining elevated on the servicing book established during the prior low-rate period.

In connection with the origination and sale of mortgage loans with servicing rights retained, we record servicing assets or liabilities based on the fair value of MSR on the date the loans are sold. Upon origination of a mortgage loan held for sale, the fair value of the mortgage servicing rights to be retained is included in the forecasted proceeds from the anticipated loan sale and results in a net gain (which is reflected in revenue). Our MSRs are initially recorded at fair value. Subsequent to the initial recording, MSRs are amortized in proportion to and over the period that the servicing income is expected to be received based on projections and timing of estimated future net cash flows and assessed for impairment based on the fair value each reporting period. During the first quarter of 2026, we began reclassifying amortization associated with MSRs to net against the related revenue (commercial mortgage origination). Historically, the corresponding MSR intangible assets were amortized through amortization expense over the estimated mortgage service period. Prior year amounts have been reclassified to conform with the fiscal 2026 presentation.

Six Months Ended June 30, 2026 Compared to the Six Months Ended June 30, 2025

Revenue increased 19.7% for the six months ended June 30, 2026 as compared to the same period in 2025. Property sales revenue increased 29.9%, led by industrial, multifamily, retail and office in the U.S. and APAC. Global leasing revenue rose 21.9%, led by office, industrial and data centers leasing driven by Americas including 22.2% in the United States, EMEA which grew 21.9% and APAC which grew 20.6%.

Foreign currency translation had a 1.8% positive impact on total revenue during the six months ended June 30, 2026, primarily driven by strength in the euro and Australian dollar, partially offset by weakness in the Japanese yen and Indian rupee.

Cost of revenue, excluding pass-through costs increased 20.6%, primarily reflecting business growth and higher commission expense, salaries and bonus. Foreign currency translation had a 1.8% negative impact on total cost of revenue, excluding pass-through costs.

Operating, administrative and other expenses increased by 10.2% for the six months ended June 30, 2026 as compared to the same period in 2025, primarily due to higher employee compensation and bonus and higher business promotion and advertising expense, driven by growth in the business. Foreign currency translation had a 2.7% negative impact on total operating expenses.

For the six months ended June 30, 2026, gross income from MSRs was \$53 million, offset by \$76 million of amortization of related intangible assets resulting in a net reduction to commercial mortgage origination revenue of \$23 million. For the six months ended June 30, 2025, the comparable amounts were \$55 million and \$72 million, respectively, resulting in a net reduction of \$17 million. The increased net reduction reflects lower origination gains, as recent originations have shifted to shorter loan terms in a higher rate environment, with amortization remaining elevated on the servicing book established during the prior low-rate period.

Three Months Ended June 30, 2026 Compared to the Three Months Ended June 30, 2025

Revenue increased 14.6%, primarily driven by strong growth in critical infrastructure and facilities management. Critical infrastructure reflected expansion of CBRE's work for data centers, as well as contribution from the recent Pearce acquisition. Facilities management was once again driven by strong growth in our local facilities management business, notably in the Americas. Enterprise facilities management revenue growth was led by strong activity across the technology, media and telecom sectors. Foreign currency translation had a 1.4% positive impact on total revenue during the quarter, primarily driven by strength in the euro partially offset by weakness in the Indian rupee.

Pass-through costs increased 10.9% during the quarter as compared to the same period in 2025 primarily due to revenue growth in the BOE segment. Foreign currency translation had a 1.3% negative impact on pass-through costs.

Cost of revenue, excluding pass-through costs increased 19.3%, driven primarily by professional compensation costs associated with revenue growth. Foreign currency translation had a 1.6% negative impact on total cost of revenue, excluding pass-through costs. Cost of revenue, excluding pass-through costs was 36.8% of total revenue, and increased compared to 35.4% in the second quarter 2025.

Operating, administrative and other expenses increased 11.1%, primarily due to higher employee compensation. Foreign currency translation had a 1.5% negative impact on total operating expenses during the quarter.

Depreciation and amortization expense increased 77.0%, reflecting higher amortization expense related to intangible assets from recent acquisitions, such as Pearce.

Six Months Ended June 30, 2026 Compared to the Six Months Ended June 30, 2025

Revenue increased 17.4% for the six months ended June 30, 2026 as compared to the same period in 2025, reflecting double-digit growth in critical infrastructure, facilities management and property management, primarily due to growth in new client wins driving increased management fees and reimbursements as well as the impact from recent acquisitions. Foreign currency translation had a 2.8% positive impact on total revenue, primarily driven by strength in the euro and British pound sterling, and partially offset by weakness in the Indian rupee.

Pass-through costs increased 14.6% during the six months ended June 30, 2026 as compared to the same period in 2025 primarily due to revenue growth in the BOE segment. Foreign currency translation had a 2.8% negative impact on pass-through costs.

Cost of revenue, excluding pass-through costs increased 21.3%, driven primarily by professional compensation costs associated with revenue growth. Foreign currency translation had a 2.8% negative impact on total cost of revenue, excluding pass-through costs. Cost of revenue, excluding pass-through costs was 36.7% of total revenue, an increase from 35.5% for the six months ended June 30, 2025.

Operating, administrative and other expenses increased 17.9%, primarily due to higher employee compensation. Foreign currency translation had a 2.8% negative impact on total operating expenses during the six months ended June 30, 2026.

Depreciation and amortization expense increased 64.1%, reflecting higher expenses related to intangible assets from recent acquisitions, such as Pearce.

Project Management

Three Months Ended June 30, 2026 Compared to the Three Months Ended June 30, 2025

Revenue increased 19.1% due to strong infrastructure activity in the United Kingdom, Europe and the Middle East, as well as strong gains in real estate projects in North America and Asia. Foreign currency translation had a 1.1% positive impact on total revenue during the quarter, primarily driven by strength in the euro, Australian dollar and British pound sterling partially offset by weakness in Indian rupee.

Pass-through costs increased 22.2% during the quarter as compared to the same period in 2025 primarily due to increased client programs. Foreign currency translation had a 0.6% negative impact on pass-through costs.

Cost of revenue, excluding pass-through costs increased 13.8%, driven by increased professional compensation and third party spend. Foreign currency translation had a 1.5% negative impact on total cost of revenue, excluding pass-through costs. Cost of revenue, excluding pass-through costs was 33.5% of total revenue, and down from 35.1% in the second quarter 2025.

Operating, administrative and other expenses increased 13.6%, primarily due to higher employee compensation related expenses. Foreign currency translation had a 3.4% negative impact on total operating expenses during the quarter.

Six Months Ended June 30, 2026 Compared to the Six Months Ended June 30, 2025

Revenue increased 17.3% for the six months ended June 30, 2026, led by strong business activity in the United Kingdom, Europe, Asia, North America and the Middle East, as well as increased revenue from pass-through costs. Foreign currency translation had a 2.7% positive impact on total revenue, primarily driven by strength in the British pound sterling and euro, and partially offset by weakness in the Indian rupee.

Pass-through costs increased 17.3% during the six months ended June 30, 2026 as compared to the same period in 2025 primarily due to increased client programs. Foreign currency translation had a 1.8% negative impact on pass-through costs.

Cost of revenue, excluding pass-through costs increased 16.3%, driven by increased professional compensation, third party spend and higher reimbursable expenses. Foreign currency translation had a 3.5% negative impact on total cost of revenue, excluding pass-through costs. Cost of revenue, excluding pass-through costs was 34.4% of total revenue and slightly down from 34.7% compared to six months ended June 30, 2025.

Operating, administrative and other expenses increased 12.0%, primarily due to higher employee compensation related expenses and higher office management and administrative salaries. Foreign currency translation had a 3.4% negative impact on total operating expenses during the six months ended June 30, 2026.

Three Months Ended June 30, 2026 Compared to the Three Months Ended June 30, 2025

Revenue decreased 10.2% for the current quarter primarily due to lower fees from development services, partially offset by increased investment management revenue. Foreign currency translation had a 1.4% positive impact on total revenue during the quarter primarily driven by strength in the euro and British pound sterling.

Cost of revenue decreased 57.1% in the quarter as compared to the same period in 2025 due to lower construction management costs incurred on our real estate development projects. Foreign currency translation had a negligible impact on total cost of revenue during the quarter.

Operating, administrative and other expenses increased 70.9% primarily due to an increase in the provision related to fire safety remediation efforts for buildings historically developed by our subsidiary, Telford Homes (see Note 17 – Telford Fire Safety Remediation). This was partially offset by a decrease in total compensation in our investment management and development services lines of business. Foreign currency translation had a 0.5% negative impact on total operating expenses.

Gain on disposition of real estate decreased by \$14 million compared with second quarter 2025, driven by lower monetization of real estate development assets in the current period versus higher sales in the prior year quarter.

We recorded equity income from unconsolidated subsidiaries of approximately \$8 million versus equity loss of \$2 million during the same period in 2025 primarily due to higher sales in the current period.

Below is a rollforward of our assets under management (AUM) by product type for the three months ended June 30, 2026 (dollars in billions):

	Funds	Separate Accounts	Securities	Total
Balance at March 31, 2026	\$ 69.3	\$ 75.2	\$ 10.7	\$ 155.2
Inflows	1.3	1.7	0.4	3.4
Outflows	(0.5)	(3.3)	(0.4)	(4.2)
Market (depreciation) appreciation	(0.5)	0.3	0.6	0.4
Balance at June 30, 2026	<u>\$ 69.6</u>	<u>\$ 73.9</u>	<u>\$ 11.3</u>	<u>\$ 154.8</u>

AUM generally refers to the properties and other assets with respect to which we provide (or participate in) oversight, investment management services and other advice, and which generally consist of real estate properties or loans, securities portfolios and investments in operating companies and joint ventures. Our AUM is intended principally to reflect the extent of our presence in the real estate market, not to be the basis for determining our management fees. Our assets under management consist of:

- the total fair market value of the real estate properties and other assets either wholly-owned or held by joint ventures and other entities in which our sponsored funds or investment vehicles and client accounts have invested or to which they have provided financing. Committed (but unfunded) capital from investors in our sponsored funds is not included in this component of our AUM. The value of development properties is included at estimated completion cost. In the case of real estate operating companies, the total value of real properties controlled by the companies, generally through joint ventures, is included in AUM; and
- the net asset value of our managed securities portfolios, including investments (which may be comprised of committed but uncalled capital) in private real estate funds under our fund of funds investments.

Our calculation of AUM may differ from the calculations of other asset managers, and as a result, this measure may not be comparable to similar measures presented by other asset managers.

Six Months Ended June 30, 2026 Compared to the Six Months Ended June 30, 2025

Revenue decreased 12.5% for the six months ended June 30, 2026 primarily due to lower management and development fees from development services. Foreign currency translation had a 2.9% positive impact on total revenue during the six months ended June 30, 2026, primarily driven by strength in the euro and British pound sterling.

Cost of revenue decreased 50.0% for the six months ended June 30, 2026 as compared to the same period in 2025 due to lower construction management costs incurred on our real estate development projects. Foreign currency translation had a 2.4% negative impact on total cost of revenue during the six months ended June 30, 2026.

Operating, administrative and other expenses increased 71.8%, primarily due to an increase in the provision related to fire safety remediation efforts for buildings historically developed by our subsidiary, Telford Homes (see Note 17 – Telford Fire Safety Remediation) and an increase in total compensation in our development services lines of business resulting from an increase in development sales during the six months ended June 30, 2026. Foreign currency translation had a 2.9% negative impact on total operating expenses.

Gain on disposition of real estate increased by \$267 million compared to the same period in 2025 driven by higher monetization of real estate development assets in 2026.

We recorded equity income from unconsolidated subsidiaries of approximately \$1 million primarily due to sales in the current year. We recorded equity loss of \$9 million during the same period in 2025 due to negative co-investment returns.

Below is a rollforward of our assets under management (AUM) by product type for the six months ended June 30, 2026 (dollars in billions):

	Funds	Separate Accounts	Securities	Total
Balance at December 31, 2025	\$ 68.9	\$ 75.8	\$ 10.8	\$ 155.5

Balance at June 30, 2026	<u>\$ 69.6</u>	<u>\$ 73.9</u>	<u>\$ 11.3</u>	<u>\$ 154.8</u>

We describe above how we calculate AUM. Also, as noted above, our calculation of AUM may differ from the calculations of other asset managers, and as a result, this measure may not be comparable to similar measures presented by other asset managers.

Corporate and Other

Our Corporate segment primarily consists of corporate overhead costs. Other consists of activities from strategic non-core non-controlling equity investments and is considered an operating segment but does not meet the aggregation criteria for presentation as a separate reportable segment and is, therefore, combined with our core Corporate function and reported as Corporate and other. The following table summarizes our results of operations for our core Corporate and other segment for the three and six months ended June 30, 2026 and 2025 (dollars in millions):

Three Months Ended June 30, 2026 Compared to the Three Months Ended June 30, 2025

Core Corporate

Operating, administrative and other expenses for our core corporate functions rose 16.4% to \$206 million for the second quarter of 2026, mainly due to higher management incentive compensation related to our strong performance.

Other (Non-core)

We had no equity losses in the second quarter of 2026. This compares with \$2 million of equity income in the second quarter of 2025.

Six Months Ended June 30, 2026 Compared to the Six Months Ended June 30, 2025

Core Corporate

Operating, administrative and other expenses for our core corporate functions rose 12.8% to \$406 million for the six months ended June 30, 2026, mainly due to higher management incentive compensation related to our strong performance.

Other (Non-core)

We recorded equity loss of \$3 million in the six months ended June 30, 2026, driven by a fair value adjustment related to our equity investments. This compares with equity income of \$23 million recognized during the same period in 2025, primarily reflecting the higher value of our investment in Altus, which was sold in the second quarter of 2025.

Liquidity and Capital Resources

We believe that we can satisfy our working capital and funding requirements with internally generated cash flow and, as necessary, borrowings under our revolving credit facilities and commercial paper program. Our expected capital requirements for 2026 include approximately \$500 million of anticipated capital expenditures, net of tenant concessions. During the six months ended June 30, 2026, we incurred \$195 million of capital expenditures. As of June 30, 2026, we had aggregate future commitments of \$177 million related to co-investment funds in our REI segment, approximately \$50 million of which is expected to be funded in 2026. Additionally, as of June 30, 2026, we are committed to fund additional capital of \$145 million and \$63 million to consolidated and unconsolidated projects, respectively, within our REI segment. As of June 30, 2026, we had \$2.9 billion of borrowings available under our revolving credit facilities (under both the 5-Year Revolving Credit Agreement and 364-Day Revolving Credit Agreement, as described below) and \$1.5 billion of cash and cash equivalents. At any point in time, we intend to maintain available commitments under the 5-Year Revolving Credit Agreement in an amount at least equal to the amount of commercial paper notes outstanding. As of June 30, 2026 and December 31, 2025, we had \$1.6 billion and \$852 million, respectively, in outstanding borrowings under the commercial paper program.

We have historically relied on our internally generated cash flow, our revolving credit facilities and commercial paper program to fund our working capital, capital expenditures, share repurchases, and general investment requirements (including in-fill acquisitions) and have not sought other external sources of financing to help fund these requirements. In the absence of extraordinary events, large strategic acquisitions or large returns of capital to shareholders, we anticipate that our cash flow from operations, our revolving credit facilities and commercial paper program will be sufficient to meet our anticipated cash requirements for the foreseeable future, and at a minimum for the next 12 months. Given compensation is our largest expense and our sales and leasing professionals are generally paid on a commission and/or bonus basis that correlates with their revenue production, the negative effect of difficult market conditions is partially mitigated by the inherent variability of our compensation structure. We may seek to take advantage of market opportunities to refinance existing debt instruments, as we have done in the past, with new debt instruments at interest rates, maturities and terms we deem attractive. We may also, from time to time in our sole discretion, purchase, redeem, or retire our existing senior notes, through tender offers, in privately negotiated or open market transactions, or otherwise.

On May 4, 2026, we issued \$750 million in aggregate principal amount of 5.250% senior notes due 2036, generating aggregate net proceeds of approximately \$735 million, after offering expenses. We used the net proceeds from this offering to repay borrowings under our commercial paper program.

On November 13, 2025, we issued \$750 million in aggregate principal amount of 4.900% senior notes due 2033, generating aggregate net proceeds of approximately \$742 million, after offering expenses. We used the net proceeds from this offering to repay borrowings under our commercial paper program used in connection with the Pearce acquisition and other corporate purposes.

On May 12, 2025, we issued \$600 million in aggregate principal amount of 4.800% senior notes due 2030 and \$500 million in aggregate principal amount of 5.500% senior notes due 2035, generating aggregate net proceeds of approximately \$1.1 billion after offering expenses. On May 28, 2025, we used a portion of the proceeds from this offering to redeem in full the \$600 million aggregate outstanding principal amount of our 4.875% senior notes due 2026.

As noted above, we believe that any future significant acquisitions we may make could require us to obtain additional debt or equity financing. In the past, we have been able to obtain such financing for material transactions on terms that we believed to be reasonable. However, it is possible that we may not be able to obtain acquisition financing on favorable terms, or at all, in the future.

Our long-term liquidity needs, other than those related to ordinary course obligations and commitments such as operating leases, generally consist of the following: the first is the repayment of the outstanding and anticipated principal amounts of our long-term indebtedness. If our cash flow is insufficient to repay our long-term debt when it comes due, then we expect that we would need to refinance such indebtedness or otherwise amend its terms to extend the maturity dates. We cannot make any assurances that such refinancing or amendments would be available on attractive terms, if at all.

The second long-term liquidity need is the payment of obligations related to acquisitions. Our acquisition structures often include deferred and/or contingent purchase consideration in future periods that are subject to the passage of time or achievement of certain performance metrics and other conditions. As of June 30, 2026 and December 31, 2025, we had accrued deferred purchase consideration totaling \$241 million (\$132 million of which was a current liability) and \$279 million

(\$149 million of which was a current liability), respectively, which was included in “Accounts payable and accrued expenses” and in “Other long-term liabilities” in the accompanying consolidated balance sheets set forth in Item 1 of this Quarterly Report.

Lastly, as described in Note 14 – Income Per Share and Stockholders’ Equity of the Notes to Consolidated Financial Statements (Unaudited) set forth in Item 1 of this Quarterly Report, in November 2024, our Board of Directors (Board) authorized an additional \$5.0 billion to our existing \$4.0 billion share repurchase program (as amended, the 2024 program) bringing the total authorized amount under the 2024 program to a total of \$9.0 billion as of June 30, 2026. The Board also extended the term of the 2024 program through December 31, 2029.

During the three months ended June 30, 2026, we repurchased 3,096,341 shares of our common stock with an average price of \$133.94 per share for an aggregate of \$414 million under the 2024 program. During the six months ended June 30, 2026, we repurchased 6,678,628 shares of our common stock with an average price of \$141.55 per share for an aggregate of \$945 million under the 2024 program. During the period from July 1, 2026 through July 27, 2026, we repurchased 305,558 shares of our common stock with an average price of \$140.73 per share for an aggregate of \$43 million. As of both June 30, 2026 and July 27, 2026, we had \$3.9 billion of capacity remaining under the 2024 program. These stock repurchases were funded with cash on hand and proceeds from our commercial paper program.

We may utilize our stock repurchase programs to continue offsetting the impact of our stock-based compensation program and on a more opportunistic basis if we believe our stock presents a compelling investment compared to other discretionary uses. The timing of any future repurchases and the actual amounts repurchased will depend on a variety of factors, including the market price of our common stock, general market and economic conditions and other factors.

Historical Cash Flows

Operating Activities

Net cash used in operating activities totaled \$687 million for the six months ended June 30, 2026 as compared to net cash used in operating activities of \$489 million during the six months ended June 30, 2025. The increase in net cash used in operating activities was driven by net outflows associated with working capital movements, largely due to higher accounts receivable due to revenue growth and the timing of cash collections.

Investing Activities

Net cash used in investing activities totaled \$209 million for the six months ended June 30, 2026 as compared to net cash used in investing activities of \$467 million during the six months ended June 30, 2025. The decrease in net cash used in investing activities for the six months ended June 30, 2026 was driven by proceeds from the disposition of real estate assets, offset by cash paid for the acquisition and development of real estate and capital expenditures. In addition, net cash used in investing activities was higher in the prior year, due to the acquisition of Industrious in the first quarter 2025.

Financing Activities

Net cash provided by financing activities totaled \$527 million for the six months ended June 30, 2026 as compared to net cash provided by financing activities of \$1,160 million for the six months ended June 30, 2025. The decreased cash inflow was primarily driven by lower net proceeds from the issuance of commercial paper and long-term debt, offset by higher cash outflows to repurchase common stock.

Indebtedness

We use a variety of financing arrangements, both long-term and short-term, to fund our operations in addition to cash generated from operating activities. We also use several funding sources to avoid becoming overly dependent on one financing source, and to lower funding costs.

Long-Term Debt

On July 10, 2023, CBRE Group, Inc. (CBRE Group), CBRE Services, Inc. (CBRE Services) and Relam Amsterdam Holdings B.V., a wholly-owned subsidiary of CBRE Services (Relam Borrower), entered into a 5-year senior unsecured Credit Agreement (2023 Credit Agreement) maturing on July 10, 2028, which refinanced and replaced the previous credit agreement. The 2023 Credit Agreement provides for a senior unsecured term loan credit facility comprised of (i) tranche A Euro-denominated term loans in an aggregate principal amount of €367 million (Tranche A (Euro) Loans) and (ii) tranche A U.S. Dollar-denominated term loans in an aggregate principal amount of \$350 million (Tranche A (USD) Loans) with weighted-average interest rate of 4.0% as of June 30, 2026, both requiring quarterly principal payments beginning on December 31, 2024 and continuing through maturity on July 10, 2028. The proceeds of these term loans under the 2023 Credit Agreement were applied to the repayment of all remaining outstanding senior term loans, approximately \$437 million, under the previous credit agreement, the payment of related fees and expenses and other general corporate purposes.

On March 13, 2025, CBRE Group, CBRE Services and Relam Borrower entered into Amendment No. 1 to the 2023 Credit Agreement, which provided for, among other things, the ability of Relam Borrower to obtain incremental commitments and loans under the 2023 Credit Agreement in an aggregate principal amount of \$750 million (or the Euro equivalent). On March 14, 2025, CBRE Group, CBRE Services and Relam Borrower entered into Amendment No. 2 and Incremental Assumption Agreement to the 2023 Credit Agreement, pursuant to which Relam Borrower incurred incremental term loans (i) denominated in Euros in the aggregate principal amount of €425 million (Incremental Euro Term Loans) and (ii) denominated in U.S. Dollars in the aggregate principal amount of \$125 million (Incremental USD Term Loans). The Incremental Euro Term Loans have the same terms applicable to, and constitute the same class as, the Tranche A (Euro) Loans, and the Incremental USD Term Loans have the same terms applicable to, and constitute the same class as, the Tranche A (USD) Loans under the 2023 Credit Agreement. The proceeds of the Incremental Euro Term Loans and the Incremental USD Term Loans were used for working capital and other general corporate purposes (including the partial repayment of borrowings under the commercial paper program) and to pay fees and expenses incurred in connection with entering into the amendments to the 2023 Credit Agreement. On June 24, 2025, CBRE Group, CBRE Services and Relam Borrower entered into Amendment No. 3 to the 2023 Credit Agreement, for the purpose of, among other things, amending the financial covenants to remove the interest coverage ratio covenant and to increase certain baskets and thresholds in the 2023 Credit Agreement in a manner consistent with the terms of the Revolving Credit Agreements described below.

The term loan borrowings under the 2023 Credit Agreement are fully and unconditionally guaranteed on a senior basis by CBRE Group and CBRE Services.

On May 4, 2026, CBRE Services issued \$750 million in aggregate principal amount of 5.250% senior notes due June 1, 2036 (the 5.250% senior notes) at a price equal to 98.947% of their face value. The 5.250% senior notes are unsecured obligations of CBRE Services and are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 5.250% per year and is payable semi-annually in arrears on June 1 and December 1 of each year, beginning on December 1, 2026.

On November 13, 2025, CBRE Services issued \$750 million in aggregate principal amount of 4.900% senior notes due January 15, 2033 (the 4.900% senior notes) at a price equal to 99.813% of their face value. The 4.900% senior notes are unsecured obligations of CBRE Services and are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 4.900% per year and is payable semi-annually in arrears on January 15 and July 15 of each year, beginning on July 15, 2026.

On May 12, 2025, CBRE Services issued \$600 million in aggregate principal amount of 4.800% senior notes due June 15, 2030 (the 4.800% senior notes) at a price equal to 99.065% of their face value. The 4.800% senior notes are unsecured obligations of CBRE Services and are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 4.800% per year and is payable semi-annually in arrears on June 15 and December 15 of each year, beginning on December 15, 2025.

On May 12, 2025, CBRE Services issued \$500 million in aggregate principal amount of 5.500% senior notes due June 15, 2035 (the 2035 5.500% senior notes) at a price equal to 99.549% of their face value. The 2035 5.500% senior notes are unsecured obligations of CBRE Services and are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 5.500% per year and is payable semi-annually in arrears on June 15 and December 15 of each year, beginning on December 15, 2025.

On February 23, 2024, CBRE Services issued \$500 million in aggregate principal amount of 5.500% senior notes due April 1, 2029 (the 2029 5.500% senior notes) at a price equal to 99.837% of their face value. The 2029 5.500% senior notes are unsecured obligations of CBRE Services and are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 5.500% per year and is payable semi-annually in arrears on April 1 and October 1 of each year.

On June 23, 2023, CBRE Services issued \$1.0 billion in aggregate principal amount of 5.950% senior notes due August 15, 2034 (the 5.950% senior notes) at a price equal to 98.174% of their face value. The 5.950% senior notes are unsecured obligations of CBRE Services and are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 5.950% per year and is payable semi-annually in arrears on February 15 and August 15 of each year.

On March 18, 2021, CBRE Services issued \$500 million in aggregate principal amount of 2.500% senior notes due April 1, 2031 (the 2.500% senior notes) at a price equal to 98.451% of their face value. The 2.500% senior notes are unsecured obligations of CBRE Services and are guaranteed on a senior basis by CBRE Group. Interest accrues at a rate of 2.500% per year and is payable semi-annually in arrears on April 1 and October 1 of each year.

The indentures governing our outstanding senior notes described above contain restrictive covenants that, among other things, limit our ability to create or permit liens on assets securing indebtedness, enter into sale/leaseback transactions and enter into consolidations or mergers.

Our senior notes are fully and unconditionally guaranteed by CBRE Group.

For additional information on all of our long-term debt, see Note 12 – Long-Term Debt and Short-Term Borrowings of the Notes to Consolidated Financial Statements set forth in Item 8 included in our [2025 Annual Report](#) and Note 10 – Long-Term Debt and Short-Term Borrowings of the Notes to Consolidated Financial Statements (Unaudited) set forth in Item 1 of this Quarterly Report.

Short-Term Borrowings

On June 24, 2025, we entered into a 5-year senior unsecured Revolving Credit Agreement (the 5-Year Revolving Credit Agreement) which replaced our prior revolving credit agreement dated August 5, 2022. The 5-Year Revolving Credit Agreement provides for a senior unsecured revolving credit facility available to CBRE Services with commitments in an aggregate principal amount of up to \$3.5 billion and a maturity date of June 24, 2030.

The 5-Year Revolving Credit Agreement requires us to pay a fee based on the total amount of the revolving credit facility commitment (whether used or unused). In addition, the 5-Year Revolving Credit Agreement also includes capacity for letters of credit not to exceed \$300 million in the aggregate and capacity for swingline loans not to exceed \$300 million in the aggregate. The 5-Year Revolving Credit Agreement is fully and unconditionally guaranteed by CBRE Group.

As of June 30, 2026, no amount was outstanding under the revolving credit facility provided for by the 5-Year Revolving Credit Agreement. \$24 million of letters of credit were outstanding as of June 30, 2026. Letters of credit are issued in the ordinary course of business and would reduce the amount we may borrow under this revolving credit facility. As of December 31, 2025, no amount was outstanding under this revolving credit facility. \$17 million of letters of credit were outstanding as of December 31, 2025.

On June 23, 2026, we entered into a new 364-day senior unsecured Revolving Credit Agreement (the 364-Day Revolving Credit Agreement, and together with the 5-Year Revolving Credit Agreement, the Revolving Credit Agreements), which replaced our prior 364-day revolving credit agreement dated June 24, 2025. The 364-Day Revolving Credit Agreement provides for a senior unsecured revolving credit facility available to CBRE Services with commitments in an aggregate principal amount of up to \$1.0 billion and a maturity date of June 22, 2027.

The 364-Day Revolving Credit Agreement requires us to pay a fee based on the total amount of the revolving credit facility commitment (whether used or unused). The 364-Day Revolving Credit Agreement is fully and unconditionally guaranteed by CBRE Group.

As of both June 30, 2026, and December 31, 2025 no amount was outstanding under the revolving credit facility provided for by the 364-Day Revolving Credit Agreement.

On December 2, 2024, CBRE Services established a commercial paper program pursuant to which we may issue and sell up to \$3.5 billion of short-term, unsecured and unsubordinated commercial paper notes with up to 397-day maturities, under the exemption from registration contained in Section 4(a)(2) of the Securities Act of 1933, as amended. Amounts available under the program may be borrowed, repaid and re-borrowed from time to time. Payment of the commercial paper notes is guaranteed on an unsecured and unsubordinated basis by CBRE Group. The program notes and the guarantee will rank pari passu with all other unsecured and unsubordinated indebtedness. The proceeds from issuances under the program may be used for general corporate purposes. The company intends to maintain available commitments under the Revolving Credit Agreement in an amount at least equal to the amount of commercial paper notes outstanding from time to time. As of June 30, 2026, we had \$1.6 billion in outstanding borrowings under the commercial paper program with a weighted-average annual interest rate of 4.08%. As of July 27, 2026 and December 31, 2025, we had \$1.6 billion and \$852 million, respectively, in outstanding borrowings under the commercial paper program.

Turner & Townsend previously maintained a £120 million revolving credit facility pursuant to a credit agreement dated March 31, 2022, with an additional accordion option of £20 million, that was scheduled to mature on March 31, 2027. Effective June 30, 2026, the Turner & Townsend credit agreement for the revolving credit facility was terminated and the facility has not been subsequently replaced as of the date of this report. As of December 31, 2025, no amount was outstanding under the Turner & Townsend revolving credit facility.

We also maintain warehouse lines of credit with certain third-party lenders. See Note 4 – Warehouse Receivables & Warehouse Lines of Credit of the Notes to Consolidated Financial Statements (Unaudited) set forth in Item 1 of this Quarterly Report.

For additional information on all of our short-term borrowings, see Note 5 – Warehouse Receivables & Warehouse Lines of Credit and Note 12 – Long-Term Debt and Short-Term Borrowings of the Notes to Consolidated Financial Statements set forth in Item 8 included in our [2025 Annual Report](#) and Note 4 – Warehouse Receivables & Warehouse Lines of Credit and Note 10 – Long-Term Debt and Short-Term Borrowings of the Notes to Consolidated Financial Statements (Unaudited) set forth in Item 1 of this Quarterly Report.

Off-Balance Sheet Arrangements

We do not have off-balance sheet arrangements that we believe could have a material current or future impact on our financial condition, liquidity or results of operations. Our off-balance sheet arrangements are described in Note 12 – Commitments and Contingencies of the Notes to Consolidated Financial Statements (Unaudited) set forth in Item 1 of this Quarterly Report and are incorporated by reference herein.

Critical Accounting Policies and Estimates

Our consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States, or GAAP, which require us to make estimates and assumptions that affect reported amounts. The estimates and assumptions are based on historical experience and on other factors that we believe to be reasonable. Actual results may differ from those estimates. We believe that the following critical accounting policies represent the areas where more significant judgments and estimates are used in the preparation of our consolidated financial statements. A discussion of such critical accounting policies, which include revenue recognition, business combinations, goodwill and other intangible assets, income taxes, and contingencies can be found in our [2025 Annual Report](#). There have been no material changes to these policies and estimates as of June 30, 2026.

New Accounting Pronouncements

See Note 2 – New Accounting Pronouncements of the Notes to Consolidated Financial Statements (Unaudited) set forth in Item 1 of this Quarterly Report.

Non-GAAP Financial Measures

Core EBITDA is not a recognized measurement under accounting principles generally accepted in the United States, or U.S. GAAP. When analyzing our operating performance, investors should use this measure in addition to, and not as an alternative for, their most directly comparable financial measure calculated and presented in accordance with U.S. GAAP. We generally use this non-GAAP financial measure to evaluate operating performance and for other discretionary purposes. We believe this measure provides a more complete understanding of ongoing operations, enhances comparability of current results to prior periods and may be useful for investors to analyze our financial performance because they eliminate the impact of selected costs and charges that may obscure the underlying performance of our business and related trends. Because not all companies use identical calculations, our presentation of core EBITDA may not be comparable to similarly titled measures of other companies.

We use core EBITDA as an indicator of the company's operating financial performance. Core EBITDA represents earnings before the portion attributable to non-controlling interests, depreciation and amortization, asset impairments, net interest expense, write-off of financing costs on extinguished debt, income taxes, further adjusted for the following items (Other adjustments):

- net non-cash mortgage servicing rights,
- integration and other costs related to acquisitions,
- carried interest incentive compensation (reversal) expense to align with the timing of associated revenue,
- charges related to indirect tax audits and settlements,
- net results related to the wind-down of certain businesses,
- impact of fair value non-cash adjustments related to unconsolidated equity investments,
- business and finance transformation,
- costs associated with efficiency and cost-reduction initiatives,
- provision associated with Telford's fire safety remediation efforts, and
- net fair value adjustments on strategic non-core investments.

We believe that investors may find this measure useful in evaluating our operating performance compared to that of other companies in our industry because their calculations generally eliminate the effects of acquisitions, which would include

impairment charges of goodwill and intangibles created from acquisitions, the effects of financings, income taxes and the accounting effects of capital spending.

Core EBITDA is not intended to be a measure of free cash flow for our discretionary use because they do not consider certain cash requirements such as tax and debt service payments. This measure may also differ from the amounts calculated under similarly titled definitions in our credit facilities and debt instruments, which are further adjusted to reflect certain other cash and non-cash charges and are used by us to determine compliance with financial covenants therein and our ability to engage in certain activities, such as incurring additional debt. We also use core EBITDA as a significant component when measuring our operating performance under our employee incentive compensation programs.

Core EBITDA is calculated as follows (dollars in millions):

Cautionary Note on Forward-Looking Statements

This Quarterly Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. The words “anticipate,” “believe,” “could,” “should,” “propose,” “continue,” “estimate,” “expect,” “intend,” “may,” “plan,” “predict,” “project,” “will,” “forecast,” “target,” and similar terms and phrases are used in this Quarterly Report to identify forward-looking statements. Except for historical information contained herein, the matters addressed in this Quarterly Report are forward-looking statements. These statements relate to analyses and other information based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our future prospects, developments and business strategies.

These forward-looking statements are made based on our management’s expectations and beliefs concerning future events affecting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. These uncertainties and factors could cause our actual results to differ materially from those matters expressed in or implied by these forward-looking statements.

The following factors are among those, but are not only those, that may cause actual results to differ materially from the forward-looking statements:

- disruptions in general economic, political and regulatory conditions and significant public health events, particularly in geographies or industry sectors where our business may be concentrated;
- volatility or adverse developments in the securities, capital or credit markets, interest rate increases and conditions affecting the value of real estate assets, inside and outside the U.S.;
- poor performance of real estate investments or other conditions that negatively impact clients’ willingness to make real estate or long-term contractual commitments;
- cost and availability of capital for investment in real estate;
- foreign currency fluctuations and changes in currency restrictions, trade sanctions and import/export and transfer pricing rules;
- our ability to compete globally, or in specific geographic markets or business segments that are material to us;
- our ability to identify, acquire and integrate accretive businesses;
- costs and potential future capital requirements relating to businesses we may acquire;
- integration challenges arising out of companies we may acquire;
- increases in unemployment and general slowdowns in economic or commercial activity;
- trends in pricing and risk assumption for commercial real estate services;
- the effect of significant changes in supply/demand and capitalization rates across different property types;
- a reduction by companies in their reliance on outsourcing for their commercial real estate needs, which would affect our revenues and operating performance;
- client actions to restrain project spending and reduce outsourced staffing levels;
- our ability to further diversify our revenue model to offset cyclical economic trends in the commercial real estate industry;
- our ability to attract new occupier and investor clients;
- our ability to retain major clients and renew related contracts;
- our ability to leverage our global services platform to maximize and sustain long-term cash flow;
- our ability to continue investing in our platform and client service offerings;
- our ability to maintain expense discipline;
- the emergence of disruptive business models and technologies;

- negative publicity or harm to our brand and reputation;
- the failure by third parties to comply with service level agreements or regulatory or legal requirements;
- the ability of our investment management business to maintain and grow assets under management and achieve desired investment returns for our investors, and any potential related litigation, liabilities or reputational harm possible if we fail to do so;
- our ability to manage fluctuations in net earnings and cash flow, which could result from poor performance in our investment programs, including our participation as a principal in real estate investments;
- the ability of our indirect wholly owned subsidiary CBRE Capital Markets, Inc. (CBRE Capital Markets) to periodically amend, or replace, on satisfactory terms, the agreements for its warehouse lines of credit;
- declines in lending activity of U.S. Government Sponsored Enterprises, regulatory oversight of such activity and our loan servicing revenue from the commercial real estate mortgage market;
- changes in U.S. and international law and regulatory environments (including relating to anti-corruption, anti-money laundering, trade sanctions, tariffs, currency controls and other trade control laws), particularly in Asia, Africa, Russia, Eastern Europe and the Middle East, due to the level of political instability in those regions;
- litigation and its financial and reputational risks to us;
- our exposure to liabilities in connection with real estate advisory and property management activities and our ability to procure sufficient insurance coverage on acceptable terms;
- our ability to retain, attract and incentivize key personnel;
- our ability to manage organizational challenges associated with our size;
- liabilities under guarantees, or for construction defects, that we incur in our development services business;
- our leverage under our debt instruments as well as the limited restrictions therein on our ability to incur additional debt, and the potential increased borrowing costs to us from a credit-rating downgrade;
- our and our employees' ability to execute on, and adapt to, information technology strategies and trends;
- cybersecurity threats or other threats to our information technology networks, including the potential misappropriation of assets or sensitive information, corruption of data or operational disruption;
- our ability to comply with laws and regulations related to our global operations, including real estate licensure, tax, labor and employment laws and regulations, fire and safety building requirements and regulations, as well as data privacy and protection regulations, sustainability matters, and the anti-corruption laws and trade sanctions of the U.S. and other countries;
- changes in applicable tax or accounting requirements;
- any inability for us to implement and maintain effective internal controls over financial reporting;
- the effect of implementation of new accounting rules and standards or the impairment of our goodwill and intangible assets;
- the performance of our equity investments in companies we do not control; and
- the other factors described elsewhere in this Quarterly Report on Form 10-Q, included under the headings "Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates," "Quantitative and Qualitative Disclosures About Market Risk" and Part II, Item 1A, "Risk Factors" or as described in our [2025 Annual Report](#), in particular in Part I, Item 1A "Risk Factors", or as described in the other documents and reports we file with the Securities and Exchange Commission (SEC).

Forward-looking statements speak only as of the date the statements are made. You should not put undue reliance on any forward-looking statements. We assume no obligation to update forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information, except to the extent required by applicable securities laws. If we do update one or more forward-looking statements, no inference should be drawn that we will

make additional updates with respect to those or other forward-looking statements. Additional information concerning these and other risks and uncertainties is contained in our other periodic filings with the SEC.

Investors and others should note that we routinely announce financial and other material information using our Investor Relations website (<https://ir.cbre.com>), SEC filings, press releases, public conference calls and webcasts. We use these channels of distribution to communicate with our investors and members of the public about our company, our services and other items of interest. Information contained on our website is not part of this Quarterly Report or our other filings with the SEC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The information in this section should be read in connection with the information on market risk related to changes in interest rates and non-U.S. currency exchange rates in Part II, Item 7A, “Quantitative and Qualitative Disclosures About Market Risk” in our [2025 Annual Report](#) and Note 8 – Derivatives and Hedging Activities to the Consolidated Financial Statements (Unaudited) set forth in Item 1 of this Quarterly Report.

Our exposure to market risk primarily consists of foreign currency exchange rate fluctuations related to our international operations and changes in interest rates on debt obligations. We manage such risks primarily by managing the amount, sources, and duration of our debt funding and by using derivative financial instruments. See Note 7 – Fair Value Measurements and Note 8 – Derivatives and Hedging Activities of the Notes to Consolidated Financial Statements set forth in Item 1 of this Quarterly Report for additional information on fair value methodology used to value the swaps at June 30, 2026. We apply Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 815, “*Derivatives and Hedging*,” when accounting for derivative financial instruments. In all cases, we view derivative financial instruments as a risk management tool and, accordingly, do not use derivatives for trading or speculative purposes.

International Operations

We conduct a significant portion of our business and employ a substantial number of people outside the U.S. As a result, we are subject to risks associated with doing business globally. Our Investment Management business has significant euro and British pound denominated assets under management (AUM), as well as associated revenue and earnings in Europe. In addition, our BOE, Advisory and Project Management segments derive significant revenue and earnings in foreign currencies, particularly the euro and British pound sterling. Fluctuations in foreign currency exchange rates may produce corresponding changes in our AUM, revenue and earnings.

Our foreign operations expose us to fluctuations in foreign exchange rates. These fluctuations may impact the value of our cash receipts and payments in terms of our functional (reporting) currency, which is the U.S. dollar. We use fixed to fixed and float to float cross-currency swaps to hedge our exposure to changes in foreign exchange rates on certain foreign investments as well as foreign currency denominated loans. As of June 30, 2026, we had outstanding cross-currency swaps with a total fair value of \$99 million included in other assets and \$343 million included in other liabilities.

Our businesses could be adversely affected by rapid and unpredictable changes to U.S. trade policy, disputes with U.S. trading partners, increased tariffs, high interest rates, limited access to debt capital or liquidity constraints, downturns in general macroeconomic conditions, regulatory or financial market uncertainty, public health crises and geopolitical conflicts (or the perception that any such events may occur).

During the three and six months ended June 30, 2026, approximately 43.0% and 43.1% of our revenue was transacted in foreign currencies. The following table sets forth our revenue derived from our most significant currencies (dollars in millions):

	Three Months Ended June 30,				Six Months Ended June 30,							
	2026		2025		2026		2025					
United States dollar	\$	6,400	57.0 %	\$	5,492	56.5 %	\$	12,383	56.9 %	\$	10,627	57.2 %

Chinese yuan		117	1.0 %		113	1.2 %		218	1.0 %		219	1.2 %
Other currencies ⁽¹⁾		858	7.7 %		739	7.6 %		1,653	7.6 %		1,388	7.5 %
Total revenue	\$	11,226	100.0 %	\$	9,717	100.0 %	\$	21,753	100.0 %	\$	18,592	100.0 %

⁽¹⁾ Approximately 49 and 46 currencies comprise 7.7% and 7.6% of our revenues for the three months ended June 30, 2026 and 2025, respectively. Approximately 49 and 46 currencies comprise 7.6% and 7.5% of our revenues for the six months ended June 30, 2026 and 2025, respectively.

Although we operate globally, we report our results in U.S. dollars. As a result, the strengthening or weakening of the U.S. dollar will negatively or positively impact our reported results. A hypothetical 10% increase in the value of the U.S. dollar relative to the British pound sterling during the six months ended June 30, 2026, would have increased pre-tax income by \$17 million. A hypothetical 10% increase in the value of the U.S. dollar relative to the euro would have decreased pre-tax income by \$12 million. These hypothetical calculations estimate the impact of translating results into U.S. dollars and do not include an estimate of the impact that a 10% change in the U.S. dollar against other currencies would have had on our foreign operations.

Foreign currency exchange rate changes may have a materially adverse effect on our financial condition and operating results. Due to our exposure to constantly changing currency rates, we cannot predict how currency exchange rate changes may affect future operating results. In addition, currency exchange volatility may make it more difficult to perform period-to-period comparisons of our reported results of operations. Our international operations are also subject to political instability and changes in tax, trade and regulatory policies, among other things, which may adversely affect our future financial performance. We monitor these risks and may add more oversight of our business activities in foreign countries where such risks and costs are particularly significant.

Interest Rates

We manage our interest expense by using a combination of fixed and variable rate debt. We may also enter into interest rate swap agreements to attempt to hedge the variability of future interest payments due to changes in interest rates. No interest rate swap agreements were outstanding as of June 30, 2026 or December 31, 2025.

We utilize sensitivity analyses to assess the potential effect on our variable rate debt. If interest rates were to increase 100 basis points on our outstanding variable rate debt as of June 30, 2026, the net impact of the additional interest cost would be a decrease of \$14 million on pre-tax income for the six months ended June 30, 2026.

For additional information on the estimated fair value and carrying value of our long-term debt, see Note 12 – Long-Term Debt and Short-Term Borrowings of the Notes to Consolidated Financial Statements set forth in Item 8 included in our [2025 Annual Report](#) and Note 10 – Long-Term Debt and Short-Term Borrowings of the Notes to Consolidated Financial Statements (Unaudited) set forth in Item 1 of this Quarterly Report.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Rule 13a-15(e) and 15d-15(e) of the Securities and Exchange Act of 1934, as amended, requires that we conduct an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Quarterly Report, and we have a disclosure policy in furtherance of the same. This evaluation is designed to ensure that all corporate disclosure is complete and accurate in all material respects. The evaluation is further designed to ensure that all information required to be disclosed in our SEC reports is accumulated and communicated to management to allow timely decisions regarding required disclosures and that information is recorded, processed, summarized and reported within the time periods and in the manner specified in the SEC's rules and forms. Any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our Chief Executive Officer and Chief Financial Officer supervise and participate in this evaluation, and they are assisted by members of our Disclosure Committee. Our Disclosure Committee consists of our Chief Legal & Administrative Officer, our Deputy Chief Financial Officer, our senior officers of significant business lines and other select employees.

We conducted the required evaluation, and our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined by Securities Exchange Act Rule 13a-15(e)) were effective as of June 30, 2026 to accomplish their objectives at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the fiscal quarter ended June 30, 2026 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

There have been no material changes to our legal proceedings as previously disclosed in our [2025 Annual Report](#).

Item 1A. Risk Factors

There have been no material changes to our risk factors as previously disclosed in our [2025 Annual Report](#).

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Open market share repurchase activity during the three months ended June 30, 2026 was as follows (dollars in millions, except per share amounts):

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
April 1, 2026 - April 30, 2026	152,908	\$ 139.67	152,908	
May 1, 2026 - May 31, 2026	1,771,331	133.44	1,771,331	
June 1, 2026 - June 30, 2026	1,172,102	133.95	1,172,102	
	<u>3,096,341</u>	\$ 133.94	<u>3,096,341</u>	<u>\$ 3,921</u>

⁽¹⁾ In November 2024, our Board authorized an additional \$5.0 billion to our existing \$4.0 billion share repurchase program (as amended, the 2024 program) bringing the total authorized amount under the 2024 program to a total of \$9.0 billion as of June 30, 2026. The Board also extended the term of the 2024 program through December 31, 2029. During the second quarter of 2026, we repurchased an aggregate of \$414 million of our common stock under the 2024 program. The remaining \$3.9 billion in the table represents the amount available to repurchase shares under the 2024 program as of June 30, 2026.

Our stock repurchase program does not obligate us to acquire any specific number of shares. Under this program, shares may be repurchased in privately negotiated and/or open market transactions, including under plans complying with Rule 10b5-1 under the Exchange Act. We may utilize our stock repurchase programs to continue offsetting the impact of our stock-based compensation program and on a more opportunistic basis if we believe our stock presents a compelling investment compared to other discretionary uses. The timing of any future repurchases and the actual amounts repurchased will depend on a variety of factors, including the market price of our common stock, general market and economic conditions and other factors.

Item 5. Other Information

During the three months ended June 30, 2026, one of our independent directors, Gerardo I. Lopez, entered into a Rule 10b5-1 Trading Plan (the Lopez Trading Plan) to purchase shares of the company's Class A common stock. Additionally, during the three months ended June 30, 2026, our Chief Legal & Administrative Officer, Chad J. Doellinger, entered into a Rule 10b5-1 Trading Plan (the Doellinger Trading Plan) to sell shares of the company's Class A common stock.

The table below provides certain information regarding the Trading Plans.

Name	Plan Adoption Date	Trade Commencement Date	Maximum Number of Shares That May Be Purchased or Sold Under the Plan	Plan Expiration Date
Gerardo I. Lopez	April 24, 2026	August 12, 2026	500 (purchased)	August 12, 2027
Chad J. Doellinger	April 24, 2026	August 13, 2026	(1)	May 14, 2027

- (1) The Doellinger Trading Plan covers the sale of (i) 228 shares of the company's Class A common stock and (ii) up to 5,304 shares of the company's Class A common stock in connection with the vesting of certain stock unit grants in 2027. The actual number of shares to be sold under this arrangement will be determined based on the number of shares withheld to satisfy tax withholding obligations upon the vesting of such awards and, in some cases, the achievement of certain performance-based vesting conditions and is not yet determinable.

We refer to the Lopez Trading Plan and the Doellinger Trading Plan collectively as the Trading Plans. The Trading Plans are intended to satisfy the affirmative defense conditions of Rule 10b5-1(c). Trading under the Trading Plan may commence no sooner than as indicated in the table above and will end on the earlier of the applicable date set forth above and the date on which all shares in the Trading Plan are purchased. The Trading Plans were adopted during an authorized trading period and when Mr. Lopez and Mr. Doellinger were not in possession of material non-public information. The transactions under the Trading Plans will be disclosed publicly through Form 144 (if applicable) and Form 4 filings with the SEC.
